WORKERS' REACTION TO KPA SUPREME COMMAND'S ORDER

[Editorial report] SK112323 Pyongyang Domestic Service in Korean at 0708 GMT on 10 February carries a 9-minute report on the reaction to the KPA supreme command's order by workers at the west Pyongyang locomotive unit and the Taesong cooperative farm in Pyongyang. The announcer begins the report with the recorded voice of Kim Chu-yong, chief of the machine section of the west Pyongyang locomotive unit, who says that "upon receiving the KPA supreme command's information, we transportation workers at the west Pyongyang locomotive unit are unanimously filled with surging hatred for the U.S. imperialists and the South Korean puppet clique."

Kim Chu-yong says: "The U.S. imperialists are now frantically scheming to extricate themselves from a crisis and this scheme has now reached its climax. In particular, the current team spirit '83 joint military exercise of the U.S. imperialists and the South Korean puppet clique is intensifying the situation on the Korean Peninsula and is leading the situation there to the brink of war. Because of this, a touch-and-go situation, in which a war may break out at any time, prevails in our country today."

He goes on to say: "If the U.S. imperialists and the South Korean puppet clique ignite a war of aggression without fail, we will rush to the sacred battle for the party, the leader, the fatherland and the people and smash the enemies, leaving none alive, like the anti-Japanese fighters who, in the period of the anti-Japanese armed struggle, fought to the end with the revolutionary (?determination) that there is not even a right to die until comrade commander's order has been implemented."

He continues: "The prevailing situation demands that we should live and work, assuming a more tense, mobilized and militant posture than ever before. We transportation workers, who have always vigorously advanced at the head of the transportation front, are filled with the burning determination to organize and develop all work, including transportation work, in a revolutionary and militant manner as required by the semi-war state, upholding the order of the respected and beloved comrade supreme commander."

He then vows to fulfill the transportation quota for the first quarter, saying that "we will effect a new turn in transportation work in the spirit and the militant vigor with which transportation workers ensured, without fail, the transportation of war supplies in the grave days of the past fatherland liberation war by demonstrating an incomparable spirit of sacrifice."

The announcer then continues the report with the recorded voice of a female worker at the Taesong cooperative farm in Pyongyang who says, "We the members of the Taesong cooperative farm cannot repress our burning hatred for and indignation against the U.S. imperialists.

Denouncing the team spirit exercise, she then says: "This war exercise racket is an escalation of the criminal schemes for aggression against our republic and is an open expression of the hostile attitude toward the Korean people. It is also an open aggressive provocation that leads the situation to the brink of war. The U.S. imperialists, however, must know [words indistinct]."

She continues: "Our people are a heroic people who defeated the (?one time) strong U.S. imperialists by firmly rallying around the respected and beloved leader Comrade Kim Il-song, the ever-victorious and iron-willed commander and the great military strategist, and the KWP. The U.S. imperialists are precisely those who suffered a miserable defeat from our people in the past Korean War. The rascals should learn a lesson from this and act discreetly."

She concludes her remarks by saying: "We the members of the Taesong cooperative farm will accelerate our work in the same spirit with which our farm workers ensured the wartime grain production in the past fatherland liberation war and complete farm preparations by mid-February. Thus, we will actively contribute to more firmly increasing the might of our fatherland by effecting a bumper harvest again this year."

KIM IL-SONG UNIVERSITY STUDENTS HOLD RALLY

[Editorial report] SK140344 Pyongyang Domestic Service in Korean 0100 GMT on 13 February carries a 21-minute report on the rally of the teachers and students of the Korean language and literature department of Kim Il-song University held on 8 February to "thoroughly take a militant, mobilized posture to comply with the demands of a semi-war state, upholding the order of the respected comrade supreme commander."

In a brief introduction to the rally, the announcer describes the meeting site and cites slogans displayed there denouncing the team spirit '83 joint military exercises.

The radio continues with a recorded report by Cho Won-pok, secretary of the primary party committee of the university.

Noting that all teachers and students of the university, having received the order of the supreme commander, "are overflowing with firm resolve to rise as one man in a sacred struggle to sternly crush the enemies, even at this moment at the risk of our lives, if the party and the leader call us," the speaker denounces the military exercises as "a vicious challenge to our republic and a naked hostile act against our people."

Saying that "we will by no means allow the U.S. imperialists to invade the land of the fatherland," the reporter says, "it is our people's firm will and stern decision to counter the enemies' retaliation with retaliation and to respond to a total war with a total war."

Noting that, "if the U.S. imperialists and the Chon Tu-hwan puppet clique dare ignite the flames of a new war despite our repeated warnings, our people will mete out a stern punishment to the aggressors as we did in the fatherland liberation war in the past," the reporter says the enemies will suffer "an annihilating blow" without fail.

Urging the teachers and students of the university to tenaciously defend and protect the great leader and glorious party center deeply cherishing their pride as teachers and students of the Kim Il-song University where "the historic relics of the glorious party center are preserved," the reporter stresses that a new revolutionary turning point will be registered in educational programs and in study work as will a more vigorous struggle to "expedite the sacred cause of the fatherland's reunification."

The radio goes on to carry a recorded speech by Pak Chae-yok, senior lecturer in the language department. The speaker pledges to provide a "wartime educational system" and to complete "material preparations for wartime education." The speaker emphatically vows to "defend and protect the great leader and glorious party center politically and ideologically at the risk of life, dashing to the site of the decisive war to crush the U.S. imperialist enemies, replacing the open with weapons if necessary."

The radio adds a recorded speech by Yo Tong-il, teacher in the classic literature department. Noting the supreme commander's order to enter a semi-war state as a "just self-defense measure" to counter the war provocation maneuvers of "the U.S. imperialists" reflecting the firm will and position of all Korean people to defend the great leader and "glorious party center," the speaker sternly protests and denounces "the military provocation maneuvers" as "reckless acts."

The radio goes on to carry a recorded speech by student Pae Kyong-son. The speaker, like other speakers, stresses "defending and protecting the great leader and glorious party center at the risk of life," and expresses a stern resolve to "sternly punish the U.S. imperialists, the sworn enemy, and the Chun Tu-hwan clique." Branding the team spirit '83 joint military exercises as a "test war and preliminary war to perpetrate aggression on our fatherland," the speaker says, "our people will mete out a stern punishment and retaliate against the rascals hundreds and thousands of times, if they recklessly provoke us."

The radio goes on to carry a final recorded speech by Kang Yong-kuk, a student. Stressing that the defense and sovereignty of a nation is a sacred mission of an independent country, the speaker says, "we will not allow any enemy to violate our national sovereignty."

At the end of the report, the announcer says that a resolution was adopted denouncing "Nakasone's South Korean junket and the military alliance of the United States, Japan and South Korea."

RPR DECLARATION ON ANTI-U.S. STRUGGLE FOR INDEPENDENCE

SK141228 (Clandestine) Voice of the Revolutionary Party for Reunification in Korean to South Korea 0300 GMT 9 Feb 83]

[Text] [Begin announcer's introduction] Hello, everybody, how are you?

The standing committee of the RPR Central Committee held a meeting on 5 February in Seoul and discussed the party's programs for activities in connection with the prevailing situation.

After analyzing the grave situation generated by the U.S. imperialists, who are further intensifying their fascist colonial rule while viciously scheming to provoke a war, the meeting adopted a resolution reflecting the all-out targets facing the party.

The resolution stressed that it is an all-out target for struggle facing the RPR to carry out the anti-U.S. national liberation revolution under the loftily raised banner of independence.

The standing committee of the RPR Central Committee decided to draft and publicize RPR Central Committee documents that clearly state the directions for activities to be carried by party organizations of all levels and the correct directions for struggle for all the party members and masses of all walks of life for the implementation of the all-out targets facing the party--the declaration for the anti-U.S. struggle for independence and slogans for anti-U.S. struggle for independence.

Now in this hour, we are going to present to you the declaration for anti-U.S. struggle for independence and the slogans for anti-U.S. struggle for independence which the RPR Central Committee issued in conformity with this resolution on 8 February. [End announcer's introduction]

[Second announcer begins reading "declaration"] A signal fire of anti-U.S. independence has been raised in South Korea, a colony which remains a tragically isolated land in the 20th century of human history.

"Is the United States a friendly nation?, "Yankee, go home!", "We denounce U.S. neo-colonialism." Along with such anti-U.S. slogans chastising the U.S. imperialists, the aggressors, the accursed American cultural centers were set ablaze and the blood-stained stars and stripes were burned up.

At long last, our people who have been oppressed and slaughtered by the colonial fascist tyrannical rule resolutely began to follow the road of national independence, exploding their anti-U.S. sentiment. Who dares to thwart the will of our popular masses, who have chosen not the road of the subservient, slave-like obedience or the road of the pro-U.S. national ruin but the road of brave resistance and of anti-U.S. patriotism and who are aspiring to regain independent national rights?

Neither fascist suppression resorting to bayonets nor deceptive anticommunist craziness will be able to keep the burning resistance of the people in check. Neither prison nor the gallows will be able to put down the burning anti-U.S. flames of resistance.

This historic stirring of the popular masses which opened a new chapter of the anti-U.S. resistance is an expression of a great national disenchantment and a natural outcome of the brutal colonial ruling system.

Ever since the U.S. imperialists--the chieftains of the modern colonialists--occupied this land, how many disgusting days of domination and subjugation have elapsed and how much repression and hunger have been forced on our people?

The hateful U.S. imperialists, who forgetting the historical lesson taught by the defeat of the brigandish Japanese imperialists, have run riot to insure their colony and to achieve their ambition of dominating the world, trampled upon the fervent aspiration for national independence with their fetters of aggression, keeping South Korea as their armory in Far East and as an overseas territory for nearly 40 years.

Annexing South Korea to the United States, the U.S. imperialist have established a most wicked and most ignominious ruling system by combining their direct military occupation and indirect rule through the puppet regime and by combining [word indistinct] of the old colonialism and the wily character of new colonialism. This is a colonial ruling system through which the on-the-spot ruling organizations, such as the U.S. Embassy in South Korea and the U.S. forces command in South Korea, exercise their influence in the political, military, economic and cultural fields by lording over the puppet regime. It is also a fascist ruling system based on terrorism which mercilessly eradicates and obliterates the popular masses' independent and democratic aspirations and demands.

The president in colonial South Korea is not chosen by public opinion but is decided by the will of the U.S. dominators, and even the prerogative of supreme command of the South Korean armed forces is in the hands of the U.S. commander in South Korea. The president is simply a native puppet who is executing the U.S. imperialists' policy of colonization and subjugation and their policy of turning South Korea into a military base, and the name "The Republic of Korea" [Daehan Minguk] is only a false billboard designed to camouflage the U.S. colonial rule.

The U.S. imperialist colonial rule of South Korea is, in essence, military domination. The military rule of South Korea by the U.S. imperialists takes

the policy of colonizing and subjugating South Korea as its basis. The U.S. imperialists have been subordinating everything to implementing the policy of turning South Korea into a colony and a military base, and they have turned South Korea into Far East nuclear armory and a war powder magazine for the purpose of achieving their ambition of dominating the world.

In South Korea, the large air, ground and naval forces and nuclear weapons are being increased without interruption, with the U.S. ground troops stationed in South Korea as the main axis, large-scale war exercises and nuclear attack exercises are frequently being staged with the participation of the United States, Japan and South Korea, and human and material resources are totally being commandeered and wasted.

What the U.S. imperialists are trying to achieve with their military strategy toward South Korea is the annexation by the United States of all of the Korean Peninsula. Following the wicked strategic goals of the U.S. imperialists, a route for reinvading South Korea has been opened for the revived and rearmed Japanese militarists, the maneuvers to form a criminal tripartite military alliance, linking it to the U.S.-Japan security treaty, South Korea-U.S. mutual defense treaty and South Korea-Japan treaty, have entered a stage of near completion, and the danger of a war of northward invasion being triggered has come into view.

Under the U.S. imperialists' colonial rule, national humiliation, inhuman oppression, starvation and poverty have reached their extreme. The tribulation-filled land of South Korea has been turned into a human limbo where neither the people of the nation nor the popular masses can survive, and the nation's resentment fills the whole land.

Here in this land where the poisoned yankee bayonets glitter, where is the independent politics that is enforced for our people and our nation?

Our people, who have longed to obtain our own independence by our own strength and to steer our own fate independently, have been despoiled of their rights of self-determination, which they valued more than their lives, and robbed of their national dignity and pride.

The only thing that colonial South Korea excels in is facism, while the things that are tragically trampled upon are freedom and democracy. The people are wriggling in the devastated graveyard of civil and democratic rights. As the self-reliant ways are totally blocked, the national economy has gone bankrupt and the livelihood of the people is completely engulfed by an abyss of hardship.

The boisterously touted economic development and high growth, while they have fattened the U.S. monopoly capitalists and a few comprador capitalists, have generated millions of unemployed and thousands and thousands of those who have left the farms, bringing about in South Korea the worst situation in which millions and millions of tons of foreign rice are imported and the whole populace is burdened with foreign debts of an astronomical figure, amounting to nearly \$400 billion.

While the U.S. monopoly capitalists are amassing a fortune by exchanging our people's blood and sweat for dollars, our popular masses are dying underserved deaths, unable to stand the soaring prices, ever-increasing unemployment, rampant disease and starvation.

The pro-U.S. toadyism that is fostered and encouraged under the veil of such words as "friendship" and "amity" is doggedly gnawing at the people's independence-mindedness and the prevailing decadent yankee culture is choking off and obliterating the national culture which once displayed its brilliance and the good customs traditionally inherited from our ancestors.

Not only is the fate of colonial slaves forced on our people, but also a people who have suffered from separation from the rest of the homogeneous race because of the outside forces and from the heartbreak of national division have been placed in grave circumstances, terrified at the thought of the danger of the nuclear war and never knowing when they will fall victims to nuclear war.

Have our people, who have inherited a long history of nearly 5,000 years, ever been afflicted with such misery combined with shame, sufferings and tragedy as today?

This lamentable reality of today in which the national fate is tragically trampled upon is indeed the greatest calamity whose equal we are unable to find in the nation's annals; it is one which has been created by the yankee aggressors and is, indeed, a tragedy of national ruin, unprecedented in our national history.

It is inevitable that repression and plunder always generate opposition and struggle. Our people, never obeying in silence the tyranny of power, have always stood up from oppression and starvation and fought for decent a human life, freedom and liberation, defying death. On the road of this arduous and glorious struggle, they shattered Syngman Rhee's dictatorial citadel and led the Pak dictatorship to its destruction, while the citizens and students in Kwangju displayed the national wisdom and brave spirit through a large-scale armed resistance struggle.

The U.S. imperialists, however, have ruthlessly slaughtered our people and submerged our land into blood whenever they found their ruling system in South Korea shaken from the bottom by the people's stubborn resistance.

It is none other than the U.S. imperialists who crushed the green dream of 19 April with the bloody bayonets of the 16 May military coup d'etat. How can we forget even for a moment the fact that is none other than the yankee aggressors who have established the Chon Tu-hwan military dictatorship on the tragic sea of blood after cruelly putting down the righteous Kwangju uprising with tanks and cannons?

Even at this moment our people are grinding their teeth and can hardly suppress the surging indignation at the yankees who, in an effort to maintain their fettered colonial kingdom, cruelly massacred thousands of the Kwangju citizens who joined in the sacred resistance of struggle for national salvation.

Even at this hour, hot-blooded youths and patriotic masses of all walks of life who value the nation and people more than their lives are shedding their warm blood in the streets of the resistance struggle because of the yankee bayonets and are being led en masse to prisons and the gallows.

Indeed, the yankee imperialists' occupation of South Korea and their colonial ruling system are direct reflection of all the discrepancies and evils of our society and are a source of all the misfortunes and calamities our people are suffering.

Unless we expel the yankee imperialists--the cursed aggressors, plunders, oppressors and our people's sworn enemies--and unless we eliminate their colonial rule, we cannot attain our aspiration for independence and democracy, cannot free ourselves from the tragedy of division and cannot avoid the holocaust of nuclear war. This is a severe lesson we have learned from the struggle that our masses have persistently waged for nearly 40 years, sweeping aside all trials of the bestial colonial fascist rule. We must correctly define the direction of pioneering the destiny and the road of struggle by drawing a lesson from today's miserable situation of subjugation and from the history of bloody struggle.

The grave situation of colonial South Korea demands that we advance on the road of national independence by upholding the anti-U.S. slogans. The anti-U.S. cause for independence is indispensable and inevitable considering the basic relations between the United States and South Korea as Suzerain state and colony and the experiences in the historic struggle.

The road for national liberation, which will enable us to brilliantly resolve the question of national destiny not repeating the history of painful ordeals, lies in the anti-U.S. cause for independence and is the shortcut to democracy and reunification. The anti-U.S. cause for independence is the basic factor for achieving the masses' aspiration for genuine liberation and independence and democracy and reunification by putting an end to the disgraceful history of a subordinate South Korea, which only serves the prosperity of the United States of America. It is the unique line firmly guaranteeing a national renaissance and national prosperity.

The anti-U.S. movement for independence is a national aspiration and is a demonstration of the national will for salvation. Today, our people desire independence, opposing oppression and subjugation. We want to enjoy happy lives in the one, unified country for many generations.

The anti-U.S. movement for independence, which reflects our people's consistent desire and aspiration, is a just struggle to cut the chains of the U.S. imperialists' domination and subjugation and to achieve genuine freedom and liberation. It is a patriotic and sacred battle to expedite the brilliant future of the reunified fatherland by attaining the unity of the people's will.

Our RPR solemnly declares that it will fulfill its mission assigned by history and by the people on the sacred road to achieve the anti-U.S. cause for independence by assuming it as its general target of struggle.

Independence is the life of the nation and the people. A nation whose independence is being trampled underfoot is the same as dead. Every nation has the right to lead a dignified life, pioneering its destiny with its own strength in accordance with its international (?position and role). This is sacred and inviolable and is an absolute condition for national (?survival).

Our masses must recover our national independence, which was taken by the yankee aggressors, and our violated national dignity. We should not tolerate the U.S. imperialists who invaded our land, who plundered our property and who massacred our people. All the masses should rise in the struggle to drive out the yankee aggressors from this land, consolidating the anti-U.S. will for national salvation, and should sternly eradicate the U.S. imperialists' colonial rule, which is stained with national indignation and grudges.

The basic issue in our patriotic struggle for independence is the question of power. A nation's right to independent is intensively expressed in its sovereignty.

Only when we have an independent government that implements politics that embrace the national aspiration and demand for independence, can our masses consolidate and develop the victory won in the anti-U.S. struggle for liberation, can they glorify national dignity and honor, can they enjoy free happy lives and can they firmly preserve the national right for self-determination, rejecting the interference of imperialists and colonialists.

What our masses will gain from the anti-U.S. movement for independence is an independent government established on the grave of colonial rule and what our masses will lose are the chains of oppression and the disgrace of subjugation. The masses from all walks of life must eradicate the cursed U.S. imperialists' colonial rule and establish a people's independent government on its ruin. Thus, they should conform the various forms of anti-U.S. struggle to this line.

The anti-fascist struggle for democracy is a task that our masses should consistently carry out along with the anti-U.S. struggle for independence. The anti-fascist struggle for democracy weakens the U.S. imperialists' colonial rule and promotes the anti-U.S. movement for independence. The masses from all walks of life, who are pursuing independence and democracy, should courageously wage the anti-U.S. national salvation struggle under the slogan of independence and, at the same time, should persistently carry out the struggle for democracy to eliminate all the fascist, oppressive organizations and all the fascist evil laws and to mop up the puppet fascist government, a tool of the U.S. imperialists' colonial rule.

It is a supreme national task to urgently reunify the divided fatherland and is an urgent demand for the present time, when the danger of permanent division is increasing. Our masses cannot live without reunification, therefore, we must achieve the reunification of the fatherland by struggle. All the masses should crush the U.S. imperialists' two-Korea strategy, fully realizing that permanent division would bring about national destruction while the fatherland's reunification would bring about prosperity and a bright future for the fatherland.

Thus, we should courageously carry out the sacred reunification battle to form the independent and neutral democratic confederal republic, leaving the present systems in the north and south as they are. We should link the divided parts of the fatherland expediting the glorious days when countrymen of the north and south can live happily in the unified three-thousand Ri land.

The national salvation struggle for independence and democracy is a difficult and arduous resistance struggle, because our basic opponents are the peerlessly atrocious and cunning U.S. imperialists. There is no instance in the history of all countries of foreign aggressive, occupation forces withdrawing by themselves or granting independence, thereby abandoning their position as ruler. It is the unique habit and behavior of imperialist aggressors to run amok to preserve their ruling position even by cruelly massacring the oppressed, weak nation and even by reducing the occupied land to ashes.

No one should expect the yankee imperialists--the ringleader of the modern imperialists and the incarnation of aggression and war--to smoothly withdraw from South Korea, an important strategic point.

The key to fostering strength in the anti-U.S. national salvation struggle is unity. The invincibility of the masses and the key to victory lie in unity.

It is a truth proven by history that, when the masses from all walks of life wage a joint struggle in firm unity, they can crush any interference by the imperialists. The only way for the masses of all strata to unite as one is to form a national democratic front.

It is time for all the masses and figures from various political parties, various factions and all walks of life who live the nation and are concerned about the future of the people to turn out in the struggle to reform the pro-U.S. South Korea into an anti-U.S. South Korea by combining their strength.

Those who think that we cannot live without U.S. assistance and protection should wake up from their pro-U.S. dream, recovering the essential national spirit and position, and should join in the grand advance to the anti-U.S. cause for independence.

All patriotic parties, public organizations, the masses from all walks of life and individuals should form a national democratic front, transcending the differences in ideologies and ideas, political views and religions, and should wage a nationwide anti-U.S. joint struggle in firm unity.

The present era is the era of independence. The oppressed people and disregarded masses of the past are now vigorously turning the wheel of history forward after emerging as the masters of the world. The bell of independence is ringing in every part of the world, tolling the end of the stronghold of imperialism and colonialism.

The yankee imperialists are confused before the strong turn toward independence and are crying in distress. The U.S. imperialists are frightened facing the anti-U.S. resistance struggle in South Korea, which was thought to be the only place without anti-U.S. sentiment.

The downfall of the U.S. imperialists is inevitable. No force in the world can stem the tide of the anti-U.S. struggle for independence.

Our anti-U.S. cause for independence is the revolutionary banner of the era of independence and is advancing under the banner of the Chuche idea, the great and permanent guiding (?line) for mankind. Thus, this cause is ever-victorious and invincible. Our RPR and the masses of all strata, vigorously advancing along the single road to the revolution for national liberation under the great banner of Kim Ilsongism, will bring about the new era of independence without fail by overthrowing the colonial rule and will open up the brilliant morning of the fatherland's reunification by eliminating the dark clouds of national division. All patriotic forces should more courageously more the national liberation war against the U.S. imperialist aggressors, upholding the anti-U.S. flag for independence. Death to the yankee aggressors! Long live the anti-U.S. cause for independence.

U.S. TRYING TO MAKE MDL 'BOUNDARY'

SK140919 Pyongyang KCNA in English 0823 GMT 14 Feb 83

[Text] Tokyo, 11 February (KNS-KCNA)--A lecture meeting on the Korean question was held on 10 February in Tokyo under the auspices of the society of concern for the Korean question in connection with the grave situation now prevailing in Korea owing to the new war provocation manoeuvres of the U.S. imperialists.

Lectures were given there respectively by critic Yoshihisa Kajitani, representative of the society, on the subject "the Nakasone cabinet and Japan-U.S.-South Korea military integration" and by critic Utai Fujishima on the subject "Nakasone's South Korean trip and its background."

They denounced Nakasone's recent visits to South Korea and the United States as aggressive ones aimed at hastening the remilitarization of Japan and the formation of the U.S.-Japan-South Korea tripartite military alliance.

The "Team Spirit 83" joint military exercises started by the U.S. imperialists and the South Korean puppet clique are a product of the U.S. imperialists' aggressive ambition for making the military demarcation line [MDL], which keeps Korea divided artificially, a "boundary" and thus perpetuating the division of Korea and pose and grave threat to peace and security in Asia, they said.

Noting in unison that for the reunification of Korea it is necessary to replace the armistice agreement by a peace agreement and force the U.S. troops out of South Korea, they strongly demanded that the U.S. imperialists give up their aggressive design and immediately withdraw from South Korea, as called for by the Korean people and the world people.

ZIMBABWEAN OFFICIALS DEMAND U.S. STOP TEAM SPIRIT

SK140458 Pyongyang KCNA in English 0423 GMT 14 Feb 83

[Text] Pyongyang, 14 February (KCNA)--D. Muvti, deputy general secretary of the Central Committee of the Zimbabwean African National Union, and Mdagana, deputy minister of state in the prime minister's office of the Republic of Zimbabwe, on 4 February respectively issued talks in denunciation of the "team spirit 83" joint military exercises of the U.S. imperialists and the South Korean puppet clique, according to a report.

The deputy general secretary of the Central Committee of the Zimbabwean African National Union said:

I am closely following the situation prevailing in Korea.

The U.S. imperialists have shipped larger quantities of nuclear and other mass destruction weapons into South Korea to step up preparations for war against the Korean people, thus rendering the situation of the Korean Peninsula more strained.

They must immediately discontinue the aggressive military exercises.

However wild they may run, the U.S. imperialists and the South Korean puppets cannot arrest the struggle of the Korean people under the wise guidance of the great leader Comrade President Kim Il-song, victory is in store only for the Korean people.

The U.S. imperialists and their lackeys are bound to meet destruction and death.

The Zimbabwean people, together with all the peace- and justice-loving world people, always stand firm on the side of the Korean people in their struggle for the independent reunification of the country.

The U.S. imperialists must withdraw their aggression forces and all the destructive weapons including nuclear weapons from South Korea and promptly stop the adventurous military exercises, as unanimously demanded by the entire Korean people and the world's peaceloving people.

The deputy minister of state in the prime minister's office of the Republic of Zimbabwe said:

To my great regret, I see that Korea, the country of our closest brothers, is in a grave situation due to the adventurous war provocation manoeuvres of the U.S. imperialists and their stooge, the Chon Tu-hwan puppet clique.

Comrade President Kim Il-song, the great leader, issued a determined order in face of the prevailing situation. This is a legitimate self-defensive measure for defending the nation's dignity.

The Korean people and armed forces will creditably defend the dignity of the nation under the wise guidance of the great leader Comrade President Kim Il-song.

The Korean people are sure to win victory.

REPORTS 'TASS' CRITICISM OF SHULTZ VISIT

SK121221 Pyongyang KCNA in English 1032 GMT 12 Feb 83

[Text] Pyongyang, 12 February (KCNA)--TASS on 10 February published its news analyst's article titled "Militaristic Triangle."

Noting that the Reagan administration is persistently knocking together the military triangle of Washington-Tokyo-Seoul, it said: this was precisely one of the main aims of the Asian tour of U.S. State Secretary Shultz.

Pointing out that the questions of "U.S.-Japanese-South Korean security system" were the predominant at Shultz's talks in Seoul, it went on:

He was lavish in his promise to the South Korean rulers of the increase of arms deliveries.

The massive military exercises "team spirit 83" kept tune with Shultz's trip. But, we must know that it was by no means an accidental coincidence.

Saying that the attempts to link the bilateral military relations between Washington and Tokyo, and Washington and Seoul in a triangular alliance have been feverishly stepped up particularly after Nakasone's assumption of office as prime minister of Japan, it stressed: Tokyo agreed to undertake the role of the loan-giver to the Chon Tu-hwan dictatorial "regime" by granting a 4,000 million dollar aid to South Korea.

Washington hopes for a bigger thing, Nakasone's military cooperation with the Seoul "regime," the news agency said, and continued:

In answer to [the] Pentagon's call, the Japanese Foreign Ministry admitted the possibility of triangular military exercises and Nakasone himself at the Diet proved the intention of the Japanese military to block international straits in the Far East in "case of emergency" and did not exclude the possibility of a joint operation of the Japanese and South Korean armed forces in the Korean Strait.

It draws our attention that the U.S. scheme to frame up an alliance with Japan and South Korea is accompanied by the deployment of U.S. nuclear weapons in the far eastern military action region as it did in west Europe. New mass

destruction weapons are hurled into South Korea in a wholesale manner in addition to hundreds of nuclear weapons already deployed there.

Washington has already got an agreement of Tokyo on the problem of deploying over 50 "F 16" fighter-bombers capable of carrying nuclear weapons in Honshu and it is planned to constantly anchor at Japanese ports U.S. aircraft carriers always carrying medium-range nuclear missiles and warships of the U.S. seventh fleet.

Declaring that the purpose of the formation of a new aggressive bloc in the Far East is obvious, TASS stressed: the point is that Washington seeks to brandish its bayonet at the countries of this region.

'KCNA' CITES MOSCOW, OTHER MEDIA ON SHULTZ TRIP

SK151124 Pyongyang KCNA in English 1108 GMT 15 Feb 83

[Text] Pyongyang, 15 February (KCNA)--Foreign countries recently exposed the criminal aim of the South Korean tour of U.S. Secretary of State Shultz, according to reports.

TASS 11 February said: Tour of Asian countries by Shultz was designed chiefly to strengthen the Washington-Tokyo-Seoul military alliance.

It noted: In Seoul where Shultz made generous promises for American arms shipments, the talks were reportedly dominated by questions relating to the "American-Japanese-South Korean security system." Seoul is assigned the role of an outpost in the Pentagon's aggressive designs in Asia. So the USA is increasing its military support to South Korea, supplies it with modern arms, including missiles, and keeps there American troops.

Denouncing his visits to Japan and South Korea, radio Moscow 9 February pointed out:

The United States plans to make Japan an "unsinkable aircraft carrier" in Asia carrying its nuclear weapons and South Korea, too, a springboard for its aggression.

Noting that the United States is inveigling its "allies" in its Far Eastern policy, the radio said: this is for using part of the military strength saved thus in other parts of the world, in other words, in the Indian Ocean and Middle East.

The Bulgarian paper OTECHESTVEN FRONT 8 February published a commentary, which said:

Shultz flew into South Korea at the very time when the "team spirit 83" joint military exercises, the largest ever in history, are being staged there. This clearly shows that the United States schemes to more tightly bind South Korea to its Asian political and military strategy and to frame up the U.S.-Japan-South Korea tripartite military alliance.

Another Bulgarian paper KOOPERATIVNO SELO 8 February carried a commentary.

It said: this time Shultz inspected the area along the military demarcation line. This is another provocation.

The ADN News Agency, the CTK News Agency and the Cuban papers JUVENTUD REBELDE and TRABAFAHORES published articles exposing the criminal aim of South Korean junket of Shultz.

The 9 February issue of the Algerian paper EL MOUDJAHID said that Shultz encouraged the puppets, ranting that the United States would strengthen "close ties" with South Korea and "protect" the South Korean puppet clique under whatever situation. It is a revelation of its true intention to keep hold on South Korea as a U.S. colony forever.

The Iranian paper ETTELA'AT 8 February noted that through his South Korean trip, Shultz schemed to frame up the U.S.-Japan-South Korea triangular military alliance and heighten the tension in the Far East.

The Tanzanian papers DAILY NEWS and UHURU, the Zimbabwean paper HERALD, the West German paper DIE WELT, Swiss papers LA SWISS and JOURNAL DE GENEVE and mass media of various other countries of the world published articles exposing his South Korean trip.

CUBAN, GDR MEDIA CONDEMN SHULTZ VISIT TO KOREA

SK161348 Pyongyang KCNA in English 1005 GMT 16 Feb 83

[Text] Pyongyang, 16 February (KCNA)--Newspapers of socialist countries published articles flaying the South Korean tour of U.S. Secretary of State Shultz, the warlike servant of U.S. imperialism.

The Cuban paper GRANMA 9 February in an article titled "Obvious is the Aggressive Nature of South Korean Tour of Shultz" says:

His South Korean junket fully assumed aggressive nature, reminding us of Dulles who made his appearance in South Korea on the eve of the U.S. imperialists' war of aggression in Korea in 1950.

The U.S. secretary of state flew into South Korea, at a time when the joint military exercises of the United States and the South Korean puppet clique are going on to continue till mid-April.

In his talks with the South Korean puppets Shultz gave U.S. commitments to aid the puppet regime and "promised" to indefinitely guarantee the artificial division of Korea.

Following the suit of Dulles, the U.S. secretary of state inspected the demilitarized zone dividing Korea into two and incited a war fever among U.S. soldiers.

The GDR paper TRIBUNE 9 February in an article captioned "team spirit 83" writes:

The United States is seeking a dangerous war in the Korean Peninsula. During his visit Shultz gave the Chon Tu-hwan military fascist clique a promise of U.S. "military aid" to South Korea.

The U.S. defence department and the "White House" have been systematically aggravating the situation in the Far East in accordance with the U.S. imperialists' global strategy against the socialist countries.

MEETING IN JAPAN DENOUNCES TRIANGULAR ALLIANCE

SK151601 Pyongyang KCNA in English 1546 GMT 15 Feb 83

[Text] Tokyo, 12 February (KNS-KCNA)--A resolution for frustrating the moves to bring into shape a U.S.-Japan-South Korea triangular military alliance and supporting the independent and peaceful reunification of Korea was adopted at a Korea-Japan friendship meeting recently sponsored in Osaka by the Minato District, Osaka, council of the General Council of Trade Unions of Japan (SOHYO) and the Minato Branch, Osaka prefecture, of the General Association of Korean Residents in Japan (Chongnyon).

Noting that the proposal to found the Democratic Confederal Republic of Koryo put forward at the sixth congress of the Workers' Party of Korea enjoys support not only of the Korean people but also on the international scale, the resolution says: we warmly welcome and support the proposal for the reunification of Korea which is most realistic and persuasive.

It sharply denounces a series of moves of the U.S. imperialists, the Japanese reactionaries and the South Korean puppets, as can be seen in Japanese Prime Minister Nakasone's visit to South Korea and the United States, regarding them as designed to step up the formation of a triangular military alliance of the United States, Japan and South Korea, obstruct Korea's reunification, menace peace and security and aggravate tension in Asia.

We will powerfully wage in this region a struggle to support the proposal for founding the Democratic Confederal Republic of Koryo and frustrate the moves to bring into shape a triangular military alliance of the United States, Japan and South Korea, the resolution says in conclusion.

YUGOSLAV PAPER SUPPORTS 1 FEBRUARY KPA REPORT

SK140432 Pyongyang KCNA in English 0407 GMT 14 Feb 83

[Text] Pyongyang, 14 February (KCNA)--The Yugoslav paper POBJEDA carried a commentary in support of the report of the supreme command of the Korean people's army, according to a report.

The paper says in part:

President Kim Il-song who had made tireless efforts for a peaceful reunification of the country for scores of years had to proclaim a semi-war state. This is because of the extremely tense situation.

Due to the splittist manoeuvres of the South Korean puppet clique, the peaceful reunification of Korea has not been realised, and South Korea has become a permanent hotbed of threat to world peace.

The "team spirit 83" military exercises are aimed at examining and completing the war preparations of the U.S. troops and the South Korean puppet army, testing new means of war and rendering the international situation further strained.

The current military exercises lay stress on attaining a political purpose as well as a military one. They should be considered to be a provocative act disturbing peace and security in Asia and a show of "strength" whipping up a tense atmosphere in the Korean Peninsula.

The "team spirit" military exercises staged by the United States and the South Korean puppets are pregnant with the vicious "spirit" of the sanguinary Korean War which all but plunged the world into the Third World War.

As long as the Korean question is not settled fairly, the Korean Peninsula will remain a dangerous hotbed of war.

Yugoslavia and the League of Communists of Yugoslavia stressed many a time that barring the peaceful reunification of Korea is a dangerous factor further aggravating the international situation.

In his lifetime President Tito expressed full support to the demand of the Democratic People's Republic of Korea that foreign troops be withdrawn from South Korea and Korea be reunified by the Korean people themselves.

Meanwhile, the Yugoslav paper VECERNJE NOVOSTI conveyed the report of the KPA supreme command.

ALL-CHINA JOURNALISTS GROUP SUPPORTS KPA REPORT

SK110532 Pyongyang KCNA in English 2220 GMT 10 Feb 83

[Text] Beijing, 9 February (KCNA)--Wang Ji, first secretary of the secretariat of the All-China Journalists Association, made public a talk in Beijing on 9 February supporting the report of the supreme command of the Korean people's army.

Noting that a new danger has been created on the Korean Peninsula owing to the massive joint military exercises started by the United States together with the South Korean puppet army in the area very close to the military demarcation line, he said:

We denounce the military exercises staged by the United States with sabre-rattling, considering them to be an act for unleashing a new war and gravely menacing peace and security of northeast Asia and the world.

The Korean people love peace and struggle for the reunification of their country.

We fully support Korea in all its stand for national reunification.

The Korean question must be solved by the Korean people themselves under all circumstances.

The United States must pull its troops out of South Korea and thus open the road to Korean reunification.

We bitterly denounce the war provocation manoeuvres of the United States and demand the withdrawal of its troops from South Korea.

It is natural that the supreme commander of the Korean people's army took a self-defensive measure with an order to enter into a semi-war state to cope with the situation obtaining in Korea.

Our two peoples of China and Korea forged militant friendship with blood in the struggle against the common enemies in the past days. The Chinese people always render resolute support to the just struggle of the Korean people and maintain traditional friendship and unity with them. Our All-China Journalists Association will take a measure to organise the press organs in reflecting more and better the present situation created on the Korean Peninsula and the Chinese people's support to the struggle of the Korean people.

FOREIGN MEDIA NOTE KPA SUPREME COMMAND REPORT

SK110547 Pyongyang KCNA in English 0348 GMT 11 Feb 83

[Text] Pyongyang, 11 February (KCNA)--Foreign mass media continue to give wide publicity to the report of the supreme command of the Korean people's army.

Carrying the gist of the report of the KPA supreme command, the Bangladesh paper BANGLADESH OBSERVER 5 February said:

The supreme commander of the Korean people's army declared a state of semi-war in connection with the start of the joint military exercises codenamed "team spirit 83" the largest ever in scale by the United States and South Korea.

It is a legitimate right of an independent people to take a self-defensive measure against the threat of an aggressor.

The military rehearsal and shameful act committed by the U.S. imperialists are acts for occupying a dominant position in Asia and they are timed to coincide with the ever more undisguised schemings to complete the triangular military alliance system of the United States, Japan and the South Korean puppet clique.

The Italian paper L'UNITA 3 February said that the joint military exercises codenamed "team spirit 83" being staged in South Korea with the participation of some 190,000 troops are an escalation of the criminal war manoeuvres against the DPRK and an open military provocation harassing peace and leading the situation to the brink of war in Korea. It conveyed the report of the supreme command of the Korean people's army.

The report of the KPA supreme command was also carried by the Italian paper IL GIORNALE, the paper of the Yemen Arab Republic AL SAURA, the Iranian paper KAYHAN INTERNATIONAL and the Ghanaian paper THE PEOPLE'S DAILY GRAPHIC and aired by the Ghanaian radio, the Zambian radio and the Zambian television.

'KCNA' CITES FOREIGN MEDIA SUPPORTING KPA REPORT

SK150255 Pyongyang KCNA in English 2331 GMT 14 Feb 83

[Text] Pyongyang, 14 February (KCNA)--Foreign mass media gave wide publicity to the report of the supreme command of the Korean people's army.

The gist of the report was recently conveyed by the Iranian papers ISLAMIC REPUBLIC and TEHERAN TIMES and other papers, radio and television of the country.

Conveying a summary of the report, the Maltese paper WEEKEND CHRONICLE 5 February said:

The "team spirit 83" joint military exercises are a war provocation act; they are largest ever in history in scale being staged by the United States and South Korea with the whole area of South Korea as the main theatre.

They are an escalation of the criminal war moves against the Democratic People's Republic of Korea and an open military provocation violating peace in Korea and leading the situation to the brink of war in this region.

The order of the supreme commander of the Korean people's army to enter into a semi-war state in face of the reckless military provocations of the U.S. imperialists is a self-defensive measure to cope with the U.S. moves to start a war.

It is a legitimate right of an independent people to take a self-defensive measure against the aggression and threat of the imperialists.

The Korean people love peace and do not want war. But they will never allow the imperialists to invade their country.

The Austrian paper VOLKS STIMME 3 February, conveying the gist of the report of the KPA supreme command, said that the proclamation of a semi-war state in Korea is a justifiable self-defensive measure.

The Finnish papers KANSAN UUTiset 3 February and DIEDONANTAJA 2 February noted in articles titled "North Korea Proclaims a Semi-war State":

The "team spirit 83" joint military exercises of the U.S. imperialists and the South Korean puppets are a military rehearsal biggest in scale since the second world war. This rehearsal is creating a big danger to the Democratic People's Republic of Korea. Therefore, North Korea was compelled to proclaim a semi-war state.

It is a natural measure, because, in the Korean War in 1950, the United States and South Korea provoked the war, beginning with such military exercises.

The Finnish News Agency reported the same content.

The French paper LE MONDE 3 February carried the gist of the report of the KPA supreme command.

The Maltese paper ORIZZONT 5 February, in an article headlined "Biggest military rehearsal of U.S. forces and the South Korean puppet army endangering peace," says:

The "team spirit 83" military exercises concentrically show the bellicose and adventurous nature of the U.S. imperialists working overtime to find a way out of the serious political and economic crisis in the new war of aggression.

The current exercises prove that the rumour of "threat of southward invasion" spread by the U.S. imperialists and the South Korean puppets is a sheer lie.

The Maltese radio and television also conveyed the gist of the report of the KPA supreme command on 5 February.

SOCIALIST PAPERS SCORE TEAM SPIRIT EXERCISE

SK111553 Pyongyang KCNA in English 1517 GMT 11 Feb 83

[Text] Pyongyang, 11 February (KCNA)--Papers of socialist countries continue bitterly castigating the "team spirit 83" joint military exercises of the U.S. imperialist aggression forces and the South Korean puppet army, according to reports.

The 2 February issue of the Bulgarian paper NARODNA ARMIYA in an article titled "Military Show" says that the current military exercises are intended to intimidate the Korean people by force of arms.

Through the military exercises the U.S. imperialists also try to obstruct the socialist construction in the Democratic People's Republic of Korea and arrest the struggle of the Korean people for clearing South Korea of the U.S. forces and achieving the independent and peaceful reunification of the country, it notes.

The Yugoslav paper DNEVNIK 4 February remarks that a grave situation prevails in the Democratic People's Republic of Korea due to the war manoeuvres of the U.S. imperialists and the South Korean puppet clique. It says:

The DPRK under the leadership of President Kim Il-song has vigorously struggled to achieve socio-economic development and realize the cherished national desire for the country's reunification. The DPRK and the Korean people are struggling for peace, security, independence, reunification and cooperation.

The DPRK could not but take a due step because the United States and South Korea mobilised huge war potentials.

A semi-war state has been proclaimed to cope with the aggressive military rehearsal. This is a manifestation of the unshakable will of the DPRK to defend all the precious gains won through a bloody struggle.

The 4 February issue of the GDR paper JUNGE WELT in an article captioned "Frontline area against peace in the Far East, the largest naval training being staged by the United States, grave threat to peace" notes that a new thing in the rehearsal participated in by all the units of U.S. ground, naval and air forces is that nuclear war exercises are staged in Korea.

Noting that Japan is indirectly participating in the joint military exercises, the Hungarian paper MAGYAR HIRLAP 5 February in a commentary says:

The United States has long urged Japan to play a greater military role in the U.S. operations in the Far East.

The United States has manoeuvred for a long time to trump up a U.S.-Japan-South Korea triangular military alliance.

A particular role of Okinawa base in the joint military rehearsal is enough to show that a tripartite military alliance is gradually taking shape.

Recalling the utterances of U.S. Defence Secretary Weinberger that in the event of "contingency" the U.S. "quick strike force" would be immediately dispatched to South Korea, the Albanian paper ZERI I POPULLIT 5 February says:

This tells that the Reagan administration seeks to interfere not only in the Far East but also in any other part of the world, if the neo-colonialist interests of the U.S. imperialists are endangered.

INDIAN GROUP DENOUNCES TEAM SPIRIT

SK111023 Pyongyang KCNA in English 1006 GMT 11 Feb 83

[Text] Pyongyang, 11 February (KCNA)--If the U.S. imperialists and the Chon Tu-hwan puppet clique dare start a war of aggression, defying the warnings of the entire Korean people, they will taste another bitter cup of defeat.

This was declared by the East-West Friendship Association of India in its statement 7 February denouncing the "team spirit 83" war exercises of the U.S. imperialists and South Korean puppet clique.

The "team spirit 83" military exercises are new war provocation manoeuvres stripping bare the nature of the U.S. imperialists as the chieftain of aggression and war, warliker and nuclear-maniac and an adventurous military folly directed against the Korean people, the statement says, and continues:

The criminal war exercises of the U.S. imperialists are intended to give a shot in the arm to the military fascist clique of Chon Tu-hwan, their despicable stooge floundering in the quagmire of destruction, rejected and isolated at home and abroad, and drive them to treachery, division, fascism and war and prop up their colonial rule over South Korea with "strength."

The "team spirit 83" proves that it is, in fact, a joint military rehearsal of the United States, Japan and the South Korean puppets and that one of its purposes is to realize the "integration" of their military action and thus lay a foundation of a triangular military alliance. The frantic war exercises staged by the U.S. imperialists and South Korean puppets also prove that the rumour of "threat of southward invasion" spread by them is a groundless propaganda.

The frantic new war provocations of the U.S. imperialists and the South Korean military fascist clique have rendered the situation of the Korean Peninsula most strained and acute in Asia and created a critical situation in Korea in which a war may break out any moment.

The U.S. imperialists must discontinue at once the rash acts to start a war of aggression and withdraw immediately their aggression troops and all their lethal weapons from South Korea.

INDIAN JOURNALIST CRITICIZES 'TEAM SPIRIT 83'

SK110544 Pyongyang KCNA in English 0342 GMT 11 Feb 83

[Text] New Delhi, 8 February (KCNA)--Saransakena, director of the editorial board of the Indian paper SANDIYA SAMACHAR, issued a talk on 7 February in denunciation of the "team spirit 83" joint military exercises of the U.S. imperialists and the South Korean puppet clique.

The new war provocation manoeuvres of the U.S. imperialists have rendered the situation on the Korean Peninsula most strained and acute in Asia and created a dangerous situation in Korea in which a war may break out any moment, he said.

The joint military exercises, he noted, are designed to threaten the Democratic People's Republic of Korea, persistently oppose the independent and peaceful reunification of Korea and save the Chon Tu-hwan military fascist clique maintained at the point of the U.S. Bayonets.

He further said:

To determinedly check and frustrate the ever more undisguised new war provocation manoeuvres of the U.S. imperialists and the South Korean puppet clique in Korea is most urgent demand for defending peace and security in Asia and the world.

In face of the present dangerous situation, the great leader President Kim Il-song, supreme commander of the Korean people's army, issued an order to the entire units of the Korean people's army and all the members of the Korean people's security forces, the worker-peasant red guards and the red young guards to enter into a semi-war state.

This order is not only a legitimate self-defensive measure, but also a declaration bringing a deadly sledge-hammer on the heads of the warmaniacs who like playing with fire.

The Chon Tu-hwan military fascist clique should not incite the confrontation between north and south but stop leading the situation to the brink of war.

The U.S. imperialists should promptly respond to the proposal of the Democratic People's Republic of Korea to replace the Korean armistice agreement with a peace agreement and stop at once the "team spirit 83" joint military exercises staged in South Korea. The U.S. imperialists should withdraw from South Korea without delay, taking along their aggression troops and lethal weapons.

BULGARIAN PRESS CONDEMNS TEAM SPIRIT '83

SK121205 Pyongyang KCNA in English 1114 GMT 12 Feb 83

[Text] Pyongyang, 12 February (KCNA)--Bulgarian papers scathingly denounced the "team spirit 83" joint military exercises of the U.S. imperialist aggression troops and South Korean puppet army, according to a report.

RABOTNICHESKO DELO on 4 February carried a commentary entitled "Rash Provocation."

For the first time after the ceasefire the entire units of the Korean people's army and all the members of the Korean people's security forces, the worker-peasant red guards and the red young guards have entered into a state of semi-war in the Democratic People's Republic of Korea in face of the "team spirit 83" war exercises, the paper says, and continues:

One of the main purposes of the war exercises is to carry out a rehearsal for the use of nuclear weapons. It is clear whom it is directed against.

The provocative act is not an isolated act, but is linked with the U.S.-Asian aggressive strategy for knocking into shape a U.S.-Japan-South Korea triangular military alliance.

The world progressive forces, it notes, extend invariable full support and solidarity to the Korean people in the struggle against the U.S. imperialists' occupation of South Korea and for smashing the provocation manoeuvres of the imperialists.

NARODNA ARMIYA in a commentary on 5 February titled "New Provocative Act Against Peace" says that the "team spirit 83" joint military exercises of the U.S. imperialists and South Korean puppet clique assume an aggressive and provocative nature.

The paper points out that a full-scale "attack operation" will be held with the mobilization of chemical and nuclear weapons in the period of the military exercises.

Pointing to the large stockpile of nuclear weapons in South Korea, it says that the training in the use of such nuclear weapons poses a grave threat to peace in Asia and the world.

VECHERNI NOVINI 3 February comes out with a commentary titled "New Provocation Manoeuvres in the Far East, 'Team Spirit 83'." It says that, in fact, war exercises of the United States, Japan and South Korea are taking place against the Democratic People's Republic of Korea.

Noting that they are a nuclear war test training, the paper says: The United States tries to threaten the Korean people with "strength" and nuclear weapons.

ZIMBABWE GROUP TELEGRAMS REAGAN ON TEAM SPIRIT

SK132237 Pyongyang KCNA in English 2201 GMT 13 Feb 83

[Text] Pyongyang, 14 February (KCNA)--The Zimbabwean national committee for Korea's reunification sent telegrams of protest on 7 February respectively to U.S. President Reagan and the Chon Tu-hwan puppet clique in denunciation of the "team spirit 83" joint military exercises of the U.S. imperialists and the South Korean puppet clique, according to a report.

The telegram to Reagan expressed deep concern about the developments in South Korea which are growing ever more serious owing to the adventurous new war provocation manoeuvres of the U.S. imperialists and said that the "team spirit 83" joint military exercises participated in by large U.S. forces and the South Korean puppet army have created a tense situation which may lead to the outbreak of a war any moment in the Korean Peninsula and gravely endanger peace and security in this region.

The telegram continued:

Today it is the unanimous demand of the entire Korean people and the revolutionary people the world over to remove the tension prevailing in the Korean Peninsula and achieveable peace in this region.

We strongly denounce the "team spirit 83" joint military exercises, considering them an intolerable challenge to the entire Korean people and the revolutionary people of the world calling for the independent and peaceful reunification of Korea.

We demand the U.S. administration to stop at once the "team spirit 83" war exercises and immediately withdraw the U.S. imperialist aggression forces and combat equipment from South Korea.

The U.S. imperialists must accept the proposal of the Democratic People's Republic of Korea for the replacement of the Korean armistice agreement with a peace agreement and desist from acts obstructive to the reunification of Korea.

The reunification of Korea should be realised on all accounts in accordance with the proposal for founding the Democratic Confederal Republic of Koryo,

a most fair nation-saving proposal advanced by President Kim Il-song the great leader.

We oppose the aggressive manoeuvres of the U.S. imperialists and will actively support and encourage at all times the Korean people's just fighting cause of national reunification.

The telegram sent to the Chon Tu-hwan puppet clique bitterly denounced the provocative "team spirit 83" joint military exercises of the U.S. imperialists aggressors and the traitor Chon Tu-hwan.

It said: We demand that the Chon Tu Hwan puppet clique make the U.S. troops and nuclear and all other destructive weapons immediately withdraw from South Korea and discontinue the "team spirit 83" military exercises at once, as demanded by the entire Korean people and the peaceloving people of the world.

The Chon Tu-hwan puppet clique must immediately abrogate the fascist murderous laws in South Korea, democratise the South Korean society and step down forthwith from "power."

The Korean people will never pardon the crimes committed by the Chon Tu-hwan puppet clique against the nation.

We hold that the reunification of Korea should be realised in accordance with the proposal for founding the Democratic Confederal Republic of Koryo advanced by the great leader President Kim Il-song.

We will always extend active support to the Korean people's just cause of national reunification and the South Korean people's struggle for the democratisation of society.

POLISH, GDR PRESS CONDEMNS TEAM SPIRIT '83

SK141202 Pyongyang KCNA in English 1123 GMT 14 Feb 83

[Text] Pyongyang, 14 February (KCNA)--Papers of socialist countries published articles condemning the "team spirit 83" joint military rehearsal of the U.S. imperialist aggression forces and the South Korean puppet army, according to reports.

The Polish paper ZOLNIERZ WOLNOSCI 6 February in an article titled "Okinawa" noted that the preparations are in full swing at U.S. army bases in Okinawa to send large armed forces to South Korea where the "team spirit 83" military exercises are going on. It said:

The current military rehearsal is taking place under the cover of huge naval and air forces.

The military exercises staged by the United States and the Seoul "regime" are growing in scope with each passing year.

As for the "team spirit 83," it can be said that it is a full-dress war rehearsal including "ground operation," "landing operation," "airlifting operation" and "heavy equipment parachuting operation."

The United States stages nuclear war exercises, using its nuclear weapons and mass destruction weapons.

It is hastening the formation of the U.S.-Japan-South Korea triangular military alliance by using the military bases in Japan in the "team spirit 83" exercises.

Such moves must be condemned not only by the Democratic People's Republic of Korea but also in Japan and other parts of Asia and the rest of the world.

Another Polish paper TRYBUNA LUDU 8 February said in an article:

The "team spirit 83" surpasses all the previous war exercises in view of its scale and in the heightening of tension in this part of the world.

This show of armed forces against the Democratic People's Republic of Korea may entail irrevocable consequences and its danger expand to an unexpected scope.

Washington regards Korea as an area "vital to the interests" of the United States.

That is why the United States gives military, political and economic "aid" to the South Korean puppets and is converting the southern half of the Korean Peninsula further into a base of nuclear missiles.

The United States is also strengthening its military occupation of South Korea, while more zealously using Japan in the realisation of its imperialist ambition.

In conclusion the paper expressed support to the propositions and proposals of the Democratic People's Republic of Korea to make the U.S. forces withdraw from South Korea and put an end to the interference of the outside forces in the internal affairs of Korea and to achieve national reunification on peaceful and democratic principles.

Meanwhile, the GDR paper NEUES DEUTSCHLAND 9 February said in a commentary:

U.S. State Secretary Shultz inspected unstable areas along the military demarcation line. This reminds one of a historical photograph of 1950 showing Dulles finally examining the plan for armed invasion in the frontline trench of the 38th parallel line on the eve of the U.S. ignition of a war of aggression against the Korean people.

The paper stressed that gone are days of those who want to subdue the world to them by the policy of gunboat and threaten it with the use of nuclear missiles.

GUYANESE ORGANIZATIONS DENOUNCE 'TEAM SPIRIT 83'

The statement says:

The "team spirit 83" is an escalation of undisguised war provocation manoeuvres against the northern half of Korea and an open aggressive move harassing peace on the Korean Peninsula and leading the Korean situation to the brink of war.

It is also a grave threat to peace and security in Asia and the rest of the world and a criminal action timed to coincide with the sinister moves of the U.S. and Japanese aggressors and the South Korean puppets to complete a triangular military alliance.

Bitterly denouncing the "team spirit 83" joint military exercises as a criminal aggressive move barring the independent and peaceful reunification of Korea and threatening world peace and security, we fully support the order of the supreme commander of the Korean people's army proclaiming a semi-war state in face of the enemy's military provocations.

The U.S. imperialists and the South Korean puppet clique must immediately stop the aggressive "team spirit 83" joint military exercises.

A grave situation has been created on the Korean Peninsula by the massive "team spirit 83" joint military exercises of the U.S. imperialists and the South Korean fascist gang, it said and continued:

MALAGASY, ZIMBABWE STATEMENTS HIT 'TEAM SPIRIT 83'

SK150235 Pyongyang KCNA in English 2322 GMT 14 Feb 83

[Text] Pyongyang, 14 February (KCNA)--The Malagasy national committee for supporting the independent and peaceful reunification of Korea and the Zimbabwean national committee for supporting Korea's reunification made public statements bitterly condemning the joint military exercises of the U.S. imperialists and the South Korean puppet clique.

In its statement on 8 February the Malagasy national committee declared that the Malagasy people, together with the world peaceloving people, are filled with the resolution to support and encourage with might and main the Korean people's struggle against the U.S. imperialist aggressors and for the independent and peaceful reunification of the country.

It said:

We fully support the order of the supreme commander of the Korean people's army to enter into a demi-war state. This is a self-defensive measure against the U.S. imperialists' war provocation manoeuvres and an exercise of a legitimate right of an independent people to cope with the imperialists' aggression.

The world people do not want war, but love peace.

If the U.S. imperialists start a war in Korea, they will suffer an irretrievable annihilating blow.

We strongly demand that the U.S. imperialists promptly stop the "team spirit 83" and immediately withdraw from South Korea, taking along all their aggressive weapons.

The Zimbabwean national committee for supporting Korea's reunification in its 8 February statement said:

A grave situation has been created on the Korean Peninsula due to the reckless war provocation manoeuvres of the U.S. imperialists.

We consider that the measure taken by the supreme command of the Korean people's army is a self-defensive measure for defending the socialist system, people's government and the territory from the U.S. imperialists' aggression.

We strongly demand that the U.S. imperialists lend an ear to the voices of the entire Korean people and the world's peaceloving people and immediately stop such aggressive war exercises as the "team spirit 83" against the DPRK.

If they, in defiance of the bitter denunciation of the Korean people and the world people, dare ignite a war against the Korean people, they will meet an irretrievable defeat.

The U.S. imperialists must unconditionally and immediately withdraw their huge amount of war materials including nuclear weapons and their troops from South Korea and promptly give up the scheme to form a triangular military alliance.

We fully support the proposal for founding the Democratic Confederal Republic of Koryo put forward by the great leader Comrade Kim Il-song, supreme commander of the Korean people's army, and express firm solidarity with the Korean people in their struggle for its implementation.

We will as ever warmly support and encourage the Korean people's just struggle against the U.S. imperialists' aggressive acts.

USSR PAPER CONDEMNS 'TEAM SPIRIT '83'

SK121030 Pyongyang KCNA in English 0817 GMT 12 Feb 83

[Text] Moscow, 10 February (KCNA)--The Soviet paper SELSKAYA ZHIZN 10 February carried a commentary titled "War Hysteria" flailing the "team spirit 83" joint military exercises of the U.S. imperialists and the South Korean puppet clique.

The paper says:

The whole of the southern part of the Korean Peninsula has virtually been turned into a ground of massive war exercises of the U.S. troops and South Korean puppet army.

These exercises surpass in scale all the preceding military exercises of the United States and its military bloc member states.

According to press reports, it is participated in by about 190,000 troops, among them more than 73,000 U.S. troops including armed forces hurled into South Korea from the U.S. mainland, Hawaii and Okinawa, Japan.

An important role in logistic support operation has fallen on the shoulder of Japan; the United States is persistently inveigling Japan into the execution of its aggressive strategy in the Far East.

Washington intends to knock into shape a U.S.-South Korea-Japan triangular military alliance through the pro-American elements in the leadership of the Liberal-Democratic Party, the ruling party of Japan.

The U.S. Defense Department pins a big expectation on the "team spirit 83." It thinks that the secret participation of Japan in it will bind Japan more tightly to the war chariot of the United States.

The usual demonstration of armed forces in the southern part of the Korean Peninsula serves for the plainly disclosed provocative purpose of Washington to aggravate the situation in this area of globe, frighten the people in this area and create a climate of wholesale war hysteria.

SOCIALIST PRESS DENOUNCES TEAM SPIRIT EXERCISE

SK150820 Pyongyang KCNA in English 0802 GMT 15 Feb 83

[Text] Pyongyang, 15 February (KCNA)--Papers of socialist countries strongly denounced the "team spirit 83" joint military exercises of the U.S. imperialists and the South Korean puppet clique as a wanton provocation against the Democratic People's Republic of Korea, a grave menace to the Asian countries, according to reports.

The Czechoslovak paper RUDE PRAVO 8 February in a commentary denounced the war exercises as a provocation designed to demonstrate the "strength" of the U.S. forces in the Korean Peninsula.

The Romanian paper APARAREA PATRIEI 9 February said the war rehearsal is an extremely dangerous military provocation threatening peace in the Korean Peninsula and in all other areas in view of its scale and aim and from the military and political point of view. The Romanian people oppose the joint military exercises of the United States and South Korea, a provocative act laying new obstacles in the way of the reunification of Korea, it wrote.

The Yugoslav paper COMMUNIST 11 February noted that President Kim Il-song, supreme commander of the Korean people's army, who had waged an energetic struggle for the peaceful reunification of the fatherland since Korea was divided, issued an order proclaiming a semi-war state. This is because the United States and South Korean puppets started the largest joint military exercises, it said.

Only when foreign troops are withdrawn from South Korea at once, it stressed, can Korea be reunified.

The 9 February issue of the Polish paper ZOLNIERZ WOLNOSCI in an article flaying the military exercises pointed out that the United States, Japan and the South Korean puppets are recently making much noise about the formation of the tripartite military alliance. It said:

Such provocative moves are aimed at preventing the realization of the proposals and initiatives of the DPRK for the peaceful and democratic reunification of Korea after forcing the U.S. troops to withdraw from South Korea.

The Bulgarian paper TRUD carried a commentary on 8 February flailing the "team spirit 83" joint military exercises as an escalation of aggravating the tensions in Asia and an open provocative act.

VENEZUELAN COMMITTEE SCORES TRIANGULAR ALLIANCE

SK160447 Pyongyang KCNA in English 0339 GMT 16 Feb 83

[Text] Pyongyang, 16 February (KCNA)--The Venezuelan committee for supporting Korea's reunification issued a statement denouncing the scheme to frame up the U.S.-Japan-South Korea triangular military alliance, according to a report.

It said: the situation of the world, the situation of the Korean Peninsula and Asia in particular, is very tense and the danger of a new world war is increasing.

Noting that the U.S. imperialists and the Japanese militarists are intensifying the war provocation manoeuvres in the Korean Peninsula and scheming to form the tripartite military alliance of the United States, Japan and South Korea, the statement said: this military alliance is the main tool of the U.S. imperialists for the execution of their policy of Asian aggression and global strategy.

Pointing out that this new grave situation is attributable to Reagan's assumption of office and the establishment of the Nakasone Government, the statement continued:

The large-scale "team spirit 83" joint military exercises and the fleet mobile attack exercise staged in the East Sea of Korea are adventurous military provocations which lead the situation in the Korean Peninsula to the brink of war.

The Venezuelan committee for supporting Korea's reunification demands that in order to turn Asia into a peace zone, a nuclear-free zone, peace be preserved there and nuclear weapons be shipped out of this region.

The Venezuelan people will join in the struggle waged by the Korean people and the world people against the U.S.-Japan-South Korea military alliance and for the withdrawal of the U.S. forces from South Korea under the banner of independence and peace.

DAILY ON S. KOREAN FOREIGN MINISTRY'S 'WORKING PLAN'

SK110617 Pyongyang KCNA in English 0419 GMT 11 Feb 83

[Text] Pyongyang, 11 February (KCNA)--The South Korean puppet Foreign Ministry made public a "working plan" for this year a few days ago.

The "working plan" whose keynote is "allout diplomacy" and "security diplomacy" published in the form of "report of work" to Chon Tu-hwan the puppet put stress on strengthening the "system of security cooperation" with the United States and promoting the "friendly relations" with Japan.

Commenting on this, NODONG SINMUN today says that this is a disgraceful pro-U.S., pro-Japanese diplomacy.

Noting that the South Korean puppet Foreign Ministry brought forward the "working plan" one month after it commenced "work" for this year, the author of the commentary says: This fact is unthinkable apart from the South Korean tour of U.S. State Secretary Shultz.

The puppets published it just on the eve of his arrival in South Korea.

In underscoring the "strengthening of cooperation" with the United States and Japan they betrayed their intention to get more military "aid" from the U.S. imperialist masters by currying favour with them.

This is clearly borne out by the fact that during his stay in South Korea the puppets entreated him to substantially increase the U.S. arms sales loan to South Korea.

The South Korean puppets are now following and faithfully serving the U.S. imperialists' aggressive plan in an attempt to get their active patronage and thereby maintain the power.

The pro-U.S., pro-Japanese "diplomacy" loudly mouthed about by the puppets is precisely for complying with the aggressive demand of the U.S. imperialists.

The pro-U.S., pro-Japanese "diplomacy" of the Chon Tu-hwan group once again discloses the dirty colours of this group of flunkeyists-traitors prolonging their remaining days by clinging to the coattails of the outside forces.

BRIEFS

PERUVIAN COMMITTEE SUPPORTS IL-SONG ORDER--Pyongyang, 16 February (KCNA)--The Peruvian committee for supporting Korea's reunification in a statement expressed full support to the order issued by Comrade Kim Il-song, president of the Democratic People's Republic of Korea, to the entire armed forces including the Korean people's army to enter into a semi-war state to cope with the provocative manoeuvres of the enemy, according to a report. Noting that the joint military exercises of the U.S. imperialists and the South Korean puppets pose a threat to the independent and peaceful development of the Democratic People's Republic of Korea, the statement says: Due to the manoeuvres of the U.S. imperialists, the danger of war is increasing hour by hour in Korea and world peace is endangered. Under the wise leadership of Marshal Kim Il-song, president of the Democratic People's Republic of Korea, the DPRK has achieved an independent development and guarantees peace and the Korean people are waging a vigorous struggle for the independent and peaceful reunification of the country. Considering that no war provocation manoeuvres of the imperialists can frighten the Korean people and their joint military rehearsal can never achieve its aim, we pungently denounce the war provocation manoeuvres. EMBASSIES TALK TO PRESS--Pyongyang, 12 February (KCNA)--Press conferences were held recently at the DPRK missions in Syria, Laos, Burundi, Guinea, Somalia, Malta and Austria in connection with the publication of the report of the supreme command of the Korean people's army. The press conferences were attended by leading men of the press and reporters of the host countries, press officials of different embassies and correspondents of various countries. Korean ambassadors or charges d'affaires ad interim conveyed the report of the KPA supreme command and spoke at the press conferences. [Text] [SK120400 Pyongyang KCNA in English 0317 GMT 12 Feb 83]

SWISS SOLIDARITY MEETING--Pyongyang, 14 February (KCNA)--A meeting of solidarity with the Korean people was held at Bern Province, Switzerland, on 4 February, according to a report. Present at the meeting were Martin Swander, member of the Central Committee of the Workers' Party of Switzerland and member of the World Peace Council, and other personages. Martin Swander spoke at the meeting. He said: Comrade Kim Il-song, supreme commander of the Korean people's army, on 1 February issued an order to all the units of the Korean people's army and the entire members of the Korean people's security forces and worker-peasant red guards and the red young guards to enter into a semi-war state in face of the grave situation prevailing on the Korean Peninsula. The peaceloving pro-

gressive figures of the world actively support this measure, standing firm on the side of the Korean people. A statement adopted at the meeting stressed: We members of the Workers' Party of Switzerland and peace champions resolutely oppose the present U.S. Government's policy of overseas expansion. We support the just efforts of the Democratic People's Republic of Korea to solve the question of national reunification without foreign interference and the struggle of the South Korean people. We fully support the proposal of the DPRK to convene a joint conference of political parties and social organisations in the north and the south and demand an unconditional and immediate withdrawal of the U.S. forces from South Korea. WORLD LAWYERS GROUP--Pyongyang, 14 February (KCNA)--The International Association of Democratic Lawyers recently issued a statement supporting the report of the supreme command of the Korean people's army and condemning the new war provocation manoeuvres of the U.S. imperialists, according to a report. The "team spirit 83" joint military exercises have created a grave tension on the Korean Peninsula, the statement says, and continues: The armed forces of the Democratic People's Republic of Korea were placed on a stand-by alert by the self-defensive measure. The bellicose war exercises organised directly by the Reagan administration and the scheme to knock into shape the U.S.-Japan-South Korea triangular military alliance constitute the grave danger of new war in Korea. The International Association of Democratic Lawyers considers that the U.S. troops' occupation of South Korea constitutes a chief obstacle to the independent and peaceful reunification of Korea and, at the same time, jeopardizes peace in this area and international security. The association appeals to the national associations of all countries to actively participate in condemning these moves of the U.S. administration and strongly demand the withdrawal of all foreign troops from South Korea. 'ANTI-CONTINENTAL' ORGANIZATION--Pyongyang, 11 February (KCNA)--The organization of solidarity of the peoples of Asia, Africa and Latin America recently made public a statement in Havana in denunciation of the "team spirit 83" joint military exercises of the United States and the South Korean puppet clique, according to a report. The statement says: The organisation of solidarity of the peoples of Asia, Africa and Latin America brands the U.S.-South Korea joint military exercises "team spirit 83" as a grave threat to peace and security in Asia. This rehearsal is a new provocation of the Chon Ju-hwan puppet regime and its masters across the ocean against the Democratic People's Republic of Korea. The rehearsal aimed at familiarizing the South Korean puppet army and the U.S. forces with the joint operation and testing the new system of weapons supplied by Washington to the dictatorial "regime" attests to Seoul's aggressive ambition and to the U.S. imperialists' intention to incite militarist fever in Japan to put Japan on the track of their policy of aggression. The organisation of solidarity of the peoples of Asia, Africa and Latin America vehemently condemns these military exercises and expresses support to the South Korean patriotic forces who are struggling for genuine freedom and democracy. ARMED PAPER DENUNCES TEAM SPIRIT--Pyongyang, 12 February (KCNA)--A recent issue of a Koreans' paper published in the United States denounced the "team spirit 83" joint military exercises being waged by the U.S. imperialists and the South Korean puppets. Noting that the "team spirit 83" started on 1 February is "a rehearsal largest ever in scale in history" setting "a new record of the military exercises," the paper said: This military rehearsal has created a grim situation, stimulating and heightening the tension on Korean Peninsula this year, in spite of the massive anti-nuclear, anti-war movement of global scale last year and, especially, the earnest desire of the world people for the removal of tension and the fixation of peace on the Korean Peninsula. The situation indicates that the United States is stepping up its policy of increasing tension on the Korean Peninsula. [Text] [SK120406

FRENCH LABOR ORGANIZATION--Pyongyang, 15 February (KCNA)--The general confederation of labour of France published a statement under the headline "in protest against militarist moves in the Far East," which lashes out at the "team spirit 83" war exercises of the U.S. imperialists and the South Korean puppet clique, according to a report. The acceleration of Japan's remilitarization, the intensified "cooperation" between the Japanese Government and the Seoul dictatorial "regime," and the events after a U.S. "announcement" that the U.S. forces may use nuclear weapons "in the event of contingency," created a new grave situation in the Far East, the statement says. Recalling that the Democratic People's Republic of Korea advanced a new reasonable proposal for the peaceful reunification of Korea, it continues: The "team spirit 83" military rehearsal being staged with the mobilization of nearly 200,000 men clearly shows the danger of war. The general confederation of labour gives information about this extremely grave situation and expresses firm solidarity with all the workers, trade union members and progressives who desire to put an end to the arms race in Asia and the rest of the world and live in peace. CUBAN'S DENUNCE TEAM SPIRIT EXERCISES--Havana, 12 February (KCNA)--The Cuban committee for supporting Korea's reunification issued a statement recently in regard to the "team spirit 83" joint military exercises of the U.S. imperialists and the South Korean puppet clique. Noting that the exercises have created a very dangerous situation in the Democratic People's Republic of Korea, the statement says: Taking into consideration the U.S. imperialists' imperialist ambition for world domination and the vast scale of the war exercises in view of the fact that they have turned South Korea into their basic operational area, we can say that the "team spirit 83" joint military exercises are an aggressive provocation against the Democratic People's Republic of Korea. We believe that if the U.S. imperialists and the South Korean puppet clique dare ignite a war of aggression against the DPRK, the Korean people would rise to the gun to defend their motherland to the last. The Cuban committee for supporting Korea's reunification extends warm support once again to the heroic Korean people at this grave moment. [Text] [SK151021

JOINT ARAB SOCIALIST DENUNCES TEAM SPIRIT--Pyongyang, 16 February (KCNA)--The Jordan-Arab Friendship Association in a statement made public in denunciation

of the "team spirit 83" joint military exercises noted that the U.S. imperialists are intensifying aggressive provocations and whipping up a war atmosphere in the Korean Peninsula as never before, according to a report. Such provocation and frantic military action as the "team spirit 83" being staged by the U.S. imperialists together with their puppets, rulers of South Korea and Japan, are vehemently denounced by the entire people of the world including the people in the Far East, the statement said, and continued: As it treasures the deep friendship forged between the Jordanian and Korean peoples and is aware of the danger created by the aggressive policy of the U.S. imperialists, the Jordan-Korea Friendship Association merges its voice with that of all the public circles and patriotic organisations and the freedom- and peace-loving forces of the world in denouncing the U.S. imperialists' aggressive policy toward the Korean Peninsula. The Jordan-Korea Friendship Association strongly demands a halt to this provocation for defending world peace and for delivering the world people from the danger of war. CHUCHE HEAD CONDEMNS TEAM SPIRIT--P'yongyang, 16 February (KCNA)--Mustafa I. Jaber, director of the board of the International Institute of the Chuche Idea, in his talk branded the "team spirit 83" military exercises as a challenge to the Democratic People's Republic of Korea and as an act designed to heighten tensions and render the acute situation more strained and thus unleash a destructive war in Korea and endanger world peace and security, according to a report. We stressed: I believe that the Korean people under the leadership of President Kim Il-sung, a hero and marshal, will smash the U.S. imperialists' provocations this time, too, just as they repulsed their provocative aggression in the 1950s, starting them on the downhill. I call upon all the peace- and freedom-loving personages the world over to lift up their voices exposing the U.S. imperialists' aggressive design on Korea and denounce their aggressive moves. 'TRIANGULAR ALLIANCE' SCORED--P'yongyang, 11 February (KCNA)--The Masaya Provincial Transport Workers' Union and the Masaya Provincial Association of parents of students studying in foreign countries in Nicaragua held an emergency meeting recently and issued a joint statement denouncing the manoeuvres to form the triangular military alliance of the United States, Japan and South Korea, according to a report. The statement says: We sternly denounce before the world people the scheme of the U.S. imperialists to frame up a triangular military alliance by bringing together the Japanese reactionary government and the South Korean fascist clique and the heinous war policy pursued by Reagan. The U.S. imperialists are running wild in their bid to form a military alliance for an aggression on the Asian continent, seeking to dominate the world. The administrators of the present Japanese Government are coming out as a zealous defender of the U.S. imperialists in Asia and the UN arena and an advocate of aggression against humanity and a faithful ally of the U.S. imperialists. We resolutely denounce the U.S. imperialists' aggressive manoeuvres in Asia which are bringing about world-wide distress. We sternly denounce the scheme to form the triangular military alliance for aggression on Korea and wish Korea, our fraternal country, an early reunification. JOINT RESEARCH ON MUNITIONS--Pyongyang, 14 February (KCNA)--The "Machinery Institute" of South Korea, in cahoots with the "Technical Institute of the Machinery Development Association" of Japan, is going ahead in full scale with the "researches of precision processing technique" for the production of munitions," according to a Japanese publication. As for the "researches of precision processing technique," it means that the Japanese militarists and the South Korean puppet clique jointly produce in South Korea munitions including "defense industrial goods, electronic machinery and measurement appliances." It is not fortuitous that a Japanese publication said "the Japanese side's cooperation is closely linked with the fostering of South Korean defence industrial technique." The "Machinery Institute" of South Korea is an organ under the direct control of the puppet Defense Ministry for the production of major munitions. And the "Technical Institute of the Machinery Development Association" of Japan is one of the organs for overseas aggression under the Japanese Ministry of International Trade and Industry. In a bid to cover up their military tieup the South Korean puppet clique and the Japanese militarists named these organs under their control "institutes" and are stepping up the production of munitions in full scale under the name of "researches." 'DIALOGUE AND NEGOTIATION'--Pyongyang, 13 February (KCNA)--The parliamentary group of the Finnish People's Democratic League on 3 February held a meeting and adopted a statement denouncing the "team spirit 83" joint military exercises of the U.S. imperialists and South Korean puppet clique, according to a report. Noting that the large-scale joint military rehearsal of the United States and South Korea is further aggravating military tension and jeopardising peace on the Korean Peninsula, the statement says: The occupation of South Korea by the U.S. troops and their joint military exercises lay a grave obstacle to the realisation of the peaceful reunification of the country, the desire and demand of the entire Korean people. We consider that the Korean people should be ensured the independent right to reunify the country in a peaceful way and build an independent and sovereign state. We express full support to the just struggle of the Democratic People's Republic of Korea to achieve the country's reunification through dialogue and negotiation. The occupation of South Korea by the U.S. troops is the chief obstacle lying in the way of the independent and peaceful reunification of Korea. We strongly demand that the United States stop forthwith the aggressive joint military exercises and withdraw its troops from South Korea at once. CHON'S CONDUCT 'SHAMEFUL'--Pyongyang, 12 February (KCNA)--A recent issue of a Korean paper published in Canada exposed the shameful conduct and flunkeyist attitude of traitor Chon Tu-Hwan at a so-called "welcome banquet" he hosted for Japanese Prime Minister Nakasone when the latter was visiting South Korea some time ago. The paper says that traitor Chon Tu-hwan "caused foreign reporters to brown" by hosting "a feast with entertainment by beautiful girls" for Nakasone during his tour of Seoul. The "feast" was arranged outside the schedule at the proposal of traitor Chon Tu-hwan to have a spree "with neckties untied," the paper notes. Representing the scene of the "feast" that evening, it says: Chon Tu-hwan overcome with liquor sang "Kim Sat Gat" with a mike in his hand and Nakasone sang in Korean "The Boy in Yellow Shirt." Touched by Nakasone's

singing the South Korean vulgar song, Chon Tu-hwan picked up the mike, crying boastfully "I can sing a Japanese song" and he sang it. Chon Tu-hwan and Nakasone drained one cup after another, with a volley of "Kanpai" in Japanese. The Japanese officials accompanying Nakasone looked vexed with the South Korean-style "feast" that evening and the Japanese reporters said that the "president" himself "showed an example" of the quality" of the "land of Kisaeng tourism." SUSPENSION OF PRISON TERM--Pyongyang, 15 February (KCNA)--A Koreans' newspaper published in the United States carried a statement titled "our view of the suspension of the execution of the prison term of Kim Tae-chung" issued by "the democratic Koreans united in the Americas," an overseas Koreans' organization, some time ago. Noting that Kim Tae-chung did not go to the United States at his own will, but was banished there by the puppet clique, the statement says. The drama of "parole" put the doom of the military fascist clique, who make a mockery of and deceive the people, on the final trial. The people at home and abroad and conscientious people of the world are rising up in the struggle in a stronger battle array for the overthrow of Chon Tu-hwan, democratic building and independent and peaceful reunification. This is the factor that made the Chon Tu-hwan gang resort to a thinly-veiled and crafty ruse to deceive the people and disorganize the democratic ranks by transferring Kim Tae-chung to the United States. Stressing that the demand for Kim Tae-chung's release was not only for his physical freedom but also for the victory of democracy and civil rights and the achievement of independence and a peaceful national reunification, the statement declares: the struggle will not cease till this target is attained. 'NODONG SINMUN' STRESSES THREE REVOLUTIONS

SK150515 Pyongyang Domestic Service in Korean 2225 GMT 13 Feb 83

[NODONG SINMUN 14 February essay: "The Three Red Flags"]

[Text] The three red flags are fluttering over our revolutionary ranks marching toward the future with a great ideal and goal for imbuing society with the Chuche idea. The red flags of the three revolutions--ideological, technical and cultural--are today's brilliant symbol of our fatherland struggling and advancing and are a glorious banner. While going through the storm of the revolution, crossing the high, rugged mountains and following the great leader and the party in the passage of time, we have experienced glorious and difficult events. The world's people call our country the fatherland of Chuche, Chollima Korea and the people's Korea. They praise it as a socialist model country. We are proud of this.

We are matchlessly proud to hold in high esteem the great leader Comrade Kim Il-song, leading us now after our 3,000-year-long history, and to follow the great party's leadership.

Our people are carrying out the revolution and advancing toward the future. Our task is to hew out the untrodden road of socialism and communism in order to completely achieve the sovereignty of the people. It is our honor to proudly assume a role as a forerunner in this cause.

The great leader Comrade Kim Il-song has taught: the cause for the three revolutions--ideological, technical and cultural--set forth by our party is an independent, creative and communist-type revolutionary one. The three red flags of the three revolutions which our party is holding is the greatest banner of the revolution.

The line for the three revolutions--ideological, technical and cultural--is the general line of our party in building socialism and communism. The line for the ideological, technical and cultural revolutions is designed to revolutionize all members of society, to turn them into members of the working class and into intellectuals, to liberate workers from difficult and arduous labor and to develop new communist-type culture.

The three red flags clearly reflect the sagacious, courageous, authoritative and proud appearance of today's Korea bravely advancing toward daybreak, defying a stormy sea like a torch illuminating the future path of history in a thick fog of the contemporary era. This constitutes the great honor of today's Korea. We are matchlessly proud of this.

1. In the preface of his book in which he sonorously expresses his view on our situation--a view he developed while visiting our country--a foreign writer says: why is it that the entire world pays attention to Korea? Why is it that figures in the political, social and press sectors on five continents are watching this distant country. Many circumstances have contributed toward the fact that, admiring Korea, the entire world pays attention to even a single remark made by it, to all lines and policies it has put forth and to experiences it has attained in building a magnificent, prosperous and modern Korea. There is a good reason why Korea, a small country situated in the edge of the Far East, has become the target of interest and admiration from the world's people. Scores of years before, Korea was an obscure, backward colonial state. Magnificently occupying its position on the arena of history, our country has developed into a dignified self-reliant, independent and self-defending powerful socialist country independently pioneering its own destiny.

The world's people pay attention to and admire our historic struggle to bring about an epochal change in a short span of time, to our matchless heroism and to the immortal achievements and miracles attained and performed in this struggle. Korea's attraction of world attention is not merely because of our unique, heroic past struggle but also because of the presence of a precious new thing which illuminates the future--our today and tomorrow. It is the line for the ideological, technical and cultural revolutions--our party's general line in building socialism and communism--and is the result of the brilliant reality in our country in which this line has been implemented.

There is a renowned pedagogue in a capitalist country, who has devoted his life to education work. Visiting various places in the world, he developed his pedagogic theory and methodology. He is greatly concerned over the fact that mankind's spiritual and moral development lags behind the development in the domains of materials and science and technology. He said that this situation casts a dark shadow over the future of mankind. Since his visit to Korea, he has changed his view of life and ideology. What did he see in Korea?

Before visiting Korea, he had seen the prevalence of the philosophy that the supreme goal of human life is to seek one's own interests and pleasures. In visiting Korea, he saw a revolutionary people who have found the greatest happiness in devoting themselves to the party, the leader, the fatherland and the people. Before his visit to Korea, he had seen the deplorable situation in which there is no morality, fidelity or tenderheartedness among people. In visiting Korea, he saw a matchlessly great revolutionary climate in which society is united into a great harmonious family and in which the party, the leader and the people are fused into a single body based on noble love for comrades and on revolutionary fidelity. In excitement, he saw the magnificent course of remodeling men in which all members of society are being revolutionized and are being turned into members of the working class and into intellectuals.

With warm tears rolling down his cheeks, the old scholar in his 70's said: In Korea, I heard the resonant cheer of lasting victory attained by men--a hopeful surge toward a future society. As long as men possess the Chuche idea and carry out the revolution through the method of the three revolutions as we see in Korea, they can achieve their moral self-fulfillment. Thus, the future of mankind is bright.

As a matter of fact, the victory we have attained through the ideological revolution is most precious--something that we would not exchange for great wealth--and is unique--something that we cannot compare with anything in the world just as Mt. Paektu magnificently towers over many low mountain ridges.

In addition to the ideological revolution, we have won great victories in the technical and cultural revolutions. Under the red flags of the ideological, technical and cultural revolutions, new independent, creative and communist-type things have been every hour of every day. These things may emerge from obscure, mundane places. They may be very small, budding things. However, all these things are fresh and are of historic significance.

There was a news report some time ago that a group of miners at the Kumsan pit in Yongyang distinguished themselves from the status of assistant engineers to that of engineers after graduating from an industrial college, pleasing the people throughout the country. The emergence of a group of intellectuals from among miners, who were once in the lowest strata of society as the most humble workers, is an event showing that our party's policy for filling society with intellectuals has been thoroughly implemented, even in the lower social segment. We can see this phenomenon among the working people throughout the country, including Chongsan-ri, and among fishermen engaged in deep-sea fishing operations.

Such new Chuche-type men as the unheralded heroes have emerged en masse in our country; Chuche art--communist-type art representing the future of the people's art, such as masterpieces of high literary merit and excellent pieces of music--has continuously developed; the new song of automation has been sonorously sung to liberate workers from difficult and arduous labor; differences between cities and rural areas have reduced; and taxes have disappeared. This, a most superior new socialist life has fully blossomed.

Indeed, thanks to the line for the ideological, technical and cultural revolutions and thanks to the presence of the red flags, Korea has brought about a great change in this land after brilliantly solving the question of overcoming centuries-long backwardness in a short span of time. Today, with the spirit of adding the speed battle to Chollima, it is advancing toward a great offensive, upholding the flames of creating the speed of the 80's. It is confidently hewing out the untrodden road of socialism and communism.

This proudly shows that our people possess a great revolutionary line and that they have found a correct path toward the future.

After listening to the great leader's report at the historic sixth party congress on the evaluation of the brilliant victory in the three revolutions in our

country, a state leader from the Third World said in his official speech: What is unique in the daily life of the DPRK people is their ability to find the correct way to solve questions that other countries cannot easily solve. The theory of the three revolutions, which has brought about social change in Korea, represents what we seek for the future in our country and is of equal significance for developed countries that have similar situations and for developing countries.

Remarks made by many foreign friends on the impression of Korea they gained while visiting it voice sympathy and envy and praise for with, our line on the three revolutions more frequently as days pass. Thus, our hearts swell with pride to possess a great revolutionary line.

The method of pioneering the future and questions concerning truth are urgent questions that many countries in the world are facing. Correct ways are now being sought throughout the world to solve the immediate questions of survival and economy, to pioneer the destiny of the people, to attain development as far as the future is concerned and to advance the revolution. Needless to say, the important thing in socialist and communist construction, designed to build a sole society, are, eventually, questions concerning lines and methods.

A hundred and scores of years have elapsed since the ideal of mankind changed from a dream to science. Today, people have come to understand that victory for communism cannot be so quickly and easily attained as they initially anticipated and that they must overcome many difficulties and trials and accomplish many difficult and complicated tasks to achieve this end. Socialism cannot be automatically achieved following the seizure of power by the working class. Communism cannot be easily and smoothly achieved following the attainment of victory in the socialist revolution. In the course of achieving this end, there will be do-or-die confrontations with desperately resisting imperialists, grim struggles against the enemy at home and abroad and most difficult and complicated tasks to create new independent, creative and communist-type things in all sectors of social life by eliminating old legacies.

What is the basic method of most correctly and quickly carrying out the unprecedentedly creative task of building the paradise of communism--an ideal society in which the sovereignty of the working people is completely achieved? For those countries that, after winning back independence from the past backward colonial or semi-colonial status, are in the process of building a new society, what is the shortcut for quickly advancing toward the ideal society of mankind just as others have done? Our party has discovered and written a prescription on this cause. This is the line for the three ideological, technical and cultural revolutions and the three red flags resplendently fluttering in Korea.

2. The three red flags fluttering over our road are glorious banners overflowing with vigor and demonstrating that our leader and party are great. The lien for the three revolutions--ideological, technical and cultural--is the great leader Comrade Kim Il-song's line and the line of our glorious party.

The greatness of the leader and party of the working class represents the greatness of their ideas and theories and the greatness the lines and policies they have put forth.

The theory that the leader and the party should exist to achieve victory in the revolution and that the people should be led by the leader and the party so that they can pioneer their own destiny is the most precious truth and rule that has been verified not only theoretically but also historically and through the lesson of blood.

This is because the leader and the party clearly indicate a path on which history and the revolution advance without turns, twists, deviations, convulsions, or the recurrence of past errors. This is a path the people should follow.

History and the people always need the leader and the party. Why is it that the people hoarsely called the leader and the party while being bound to the implement of punishment after resisting feudalistic tyranny and while falling, futilely shedding blood, after resisting the iron shackles of the capitalists? Why is it that people look to the leader and the party when they face difficult and complicated situations, when the situation rapidly changes and when their future path becomes dismal? This is because the leader and the party indicate their future path.

When we review history, we see that those peoples who found the path of advance that they should follow and who possessed a correct line enjoyed victories, happiness and honor as forerunners. Those people who failed in this regard suffered all kinds of misfortunes and disasters and were backward and humiliated.

It is fortunate for our people to honorably hold in high esteem the respected and beloved Comrade Kim Il-song, the genius of the revolution and the greatest leader of the working class that mankind has ever produced in its history of several thousand years, and to follow the leadership of the greatest party.

The KWP has become the most renowned party in solving any difficult and complicated question in our contemporary era and in our revolution. The KWP has become a great party that has won absolute confidence and authority from our people and from the world's revolutionary people, because it has not made any mistake or deviation at all in formulating its lines and policies.

The justness and invincible vitality of the line for the three revolutions that has illuminated the path of advance in our contemporary era and has won victory in our country brilliantly demonstrates the sagacious nature and greatness of our party. The ray of the three revolutions is that of the great wisdom of our leader. We cannot grasp through a few attempts the whole aspect of the greatness of the ideological and theoretical activities of the respected and beloved leader, who discovered the truth of the three revolutions for the first time, because these activities are too great and too profound. Through this, we can excitedly see part of the profound wisdom and immeasurably great energy and effort our leader, who has followed such a unique road of study that no other thinker has ever traversed it, exerted in order to lead our people to the unclouded road of socialism and communism to the end.

In his historic policy speech, which brightly illuminated the future path of our people toward communism, the great leader Comrade Kim Il-song put forth the famous principle that adding the three revolutions to the people's government creates communism. Since men began expressing their ideas with letters and since the parties of the working class began scientifically predicting the future path of the revolution, using their own theories, there has been no instance in which the profound truth of completely and flawlessly developing the theory on socialist and communist construction has been condensed in a such short sentence as we have seen.

Today when this great principle has been standardized and when the justness of the line for the three revolutions has been verified through practical activities, we need not tediously point out the immeasurably profound, great significance of this principle.

When our leader discovered the truth of the three revolutions for the first time, no one imagined the great innovative significance this truth would have in the course of creating new history.

It is not that the three revolutions have started recently for the first time in our country. Our people vividly remember and excitedly recall the time some 40 years ago shortly after liberation when, upholding, with a single will and intent, the policy for three mass movements initiated by the great leader, the people vigorously took the first step toward building a new fatherland. In the flames of the mass movements for total mobilization for national foundation, for production competition and for eliminating illiteracy, our people received indoctrination for the first time on a new democratic ideology and patriotism by rubbing off the filth of the old ideologies.

The sound of the gong reverberated signalling the launching of the project for the repair of the Potong River, and the sound of the drum echoed to signal the start of the movement for production competition. Thus, the people have gained experiences in the work of remodeling nature in accordance with the requirements of the Chuche idea. Amid the sonorous voices reading in schools in forests, the people emerged from centuries-long ignorance and illiteracy. This was the circumstance in which the great three revolutions were launched.

All the historic struggles of our people and the epochal changes in this land, including the subsequent chollima movement that shook the world and the great victory in industrialization, were waged, took place and blossomed in this land, following the track of the three revolutions.

We cannot forget the iron-clad will, great passion and effort of the great leader, who, during the historic period when a basic change took place in the activity of the people and in the position of our fatherland, continuously indoctrinated our people, saying that ideological, technical and cultural revolution was a serious revolution and led them along the single road of the three revolutions with the revolutionary spirit of Mt Paektu. Recalling the glorious course of the Korean Revolution, we cannot but admire the wisdom and keen insight of our leader who, when people wandered about in a thick fog, led them to the single road of the three revolutions by lifting the curtain of the temporary error and by having a clear foresight into the course of history. Now

can we compare the greatness of the wisdom of our leader to anything in the world?

The hot wind of the three revolutions whirling in this land represents the great passion of our glorious party--a resplendent guiding star in communist construction--and is the precious fruition of its energetic ideological and theoretical activities.

How is it that the three red flags are vigorously fluttering in this land? How is it that the fiery wind of the three revolutions is fiercely whirling in this land and that the roaring sound of these revolutions are continuously echoing here? The flames of the three revolutions blazing in our country were not spontaneous. We cannot imagine these revolutions without the many creative plans of our party and its profound and creative ideological and theoretical policies for grasping the line for the three revolutions--the line of the great leader--as its general line for developing these revolutions into a pan-national mass movement and for continuously promoting and expanding them.

The three revolutions, which were launched 10 years ago by our party as a new-type powerful method of guiding the revolution, have developed into a method for breaking through the barriers that hinder their advance, into a lasting revolutionary fuse and into a forerunner powerfully forging ahead with these revolutions.

The torch of the movement to win the red flags of the three revolutions lit by our party in Komdok and Chongsan-ri spread through the country like a prairie fire, making these revolutions--very high-level ones working toward communism--firmly take root in this land and developing them into the task of scores of millions of people, into something firmly taking a place in the minds of our people and into an uncontrollable, surging trend.

If we compiled in a book the story of the movement to follow and learn from the unheralded heroes, which, moving many people, powerfully vitalized the work of reforming our idea and man; the torch raised in the Hwanghae Steel Mill, which spread throughout the country with the new song of automation; the great communist-type humanism and the immortal theory on film, which ushered in the brilliant era of renaissance in the 20th century; and the many unique ideas, theories, policies and plans our party set forth to remodel nature, society and man under the revolutionary slogans "let us make ideologies, technology and culture comply with the requirements of Chuche" and "let us carry out production activities, study and live in accordance with the requirements of Chuche," we would have compiled an encyclopedia on socialist and communist construction.

This revolutionary library, the encyclopedia that would contain all the questions about carrying out the three revolutions, including the questions of building the party and of construction work in the political, economic and cultural sectors, would be full of unique ideas, profound truths and excellent principles. Thus, vividly looming before us is a fully developed and completely systematized theory on the three revolutions--the development of the theory on socialist and communist construction following the establishment of the socialist system with the detailed explanation of the principle and the method for the cause. Together with the Chuche idea, this constitutes the greatest discovery in our contemporary era and shines as an immortal ideological and theoretical achievement that we have attained for the revolution.

The history of mankind is that of a continuous struggle to protect the sovereignty of the people. While people were developing science, technology and culture and conquering nature, there were memorable salient eras of change and creation in the history of the struggle in which slaves resisted their masters under the red flag of the revolution--the red flag of the struggle--in which serfs resisted feudalistic tyranny and in which the working class applied an iron hammer to the capitalist citadel. In this course, there have been thinkers, runners, heroes and artistic masters.

Our cause for socialist and communist construction, which requires the creation of great theories and great practical activities, an indomitably strong will, strong practical power and encyclopedic knowledge, awaited the appearance of an unprecedentedly great ideological and theoretical master, the master of leadership and the master of creation. Such a great master is our leader, and such a great party is our glorious party.

3. The three red flags are a lasting revolutionary banner that our glorious party has firmly grasped while leading Korea to a bright future and is the symbol of the firm will of our people to carry out the revolution, following the party.

A just line takes root in reality, blossoms and bears fruits by the iron-clad will of the working-class party to follow this line. In the revolutionary struggle, it is no less important to consistently follow a correct line than to formulate it. When the party fails to consistently follow a good line, this line fails to effectively function, undergoing revision and distortion and losing the way that it found with difficulty.

An inviolable creed and consistency in implementing its lines and policies are the important characteristics of our glorious party. Our party has firmly grasped the line for the three revolutions--the revolutionary line of the great leader--as a shortcut toward implementing the program for imbuing society with the Chuche idea and for completing the Chuche revolutionary program.

The only line for the three revolutions--ideological, technical and cultural--is the sole path of advance that we should follow. It is the unswerving, iron-clad will and absolute belief of our party that the three revolutions should proceed as the three revolutions forever.

The line of the party is the only line of an inviolable one that we are following on the road to the realization of socialism. We have met difficulties, trials and temptations. There have been difficult situations that threatened the banner of the revolution to the end and the period of building socialism and communist society. But, it was by holding this banner during the period of the struggle to realize the Chuche ideal.

Our party has firmly grasped the line of the three revolutions and has constantly continued to lead the people to the realization of socialism. There are few countries that have done this. But, in the face of the Chuche ideal, however, the more difficult and complicated the situation has become and the more vast and challenging the task ahead of us, the more firmly our party has stood on the line of the three revolutions and the more vigorously it has achieved the victory of the Chuche ideal.

program it has set forth and the higher it has upheld the three red flags--the banner of the revolution.

It is proven by the fact that when we were assigned the difficult and vast task of implementing the decision of the historic fifth party congress, the party initiated the three revolutions team movement and that, when we were assigned the urgent task of correctly making preparations for a great revolutionary event and of accelerating socialist and communist construction to the maximum, it initiated the movement to win the red flags of the three revolutions. This is also proven by our party's consistent policy saying that the important key to creating the speed of the 1980's today to bring about a new, great upsurge is to more firmly grasp this movement.

The consistency of our party is reflected in the fact that it has followed the line and policy it has adopted to the end without wavering no matter what storm and thunder it has faced, that it has pursued this cause no matter what mountains or mud flats have blocked its advance course, that it has solved all difficult and complicated questions and that it has accomplished and work it has decided to complete. The consistency of our party is reflected in its traditional nature, with which it has valued its own, has made a positive effort to develop all things created in our won style and has protected them forever generation after generation.

For the iron-clad will and consistency of our party, our people foresee the victory of the three revolutions. They confidently view the greatness of our party as the guide of communist construction.

To lift the three red flags, our party is determined to lead our people to the era of the paradise of communism in which society is imbued with the communist ideal. Our people are firmly determined to invariably follow the party under these flags held by the party, no matter how far this course may be and to carry out the revolution to the end, following the party.

The spirit of our people, who are willing to carry out the revolution, to struggle to work, is overflowing everywhere. Look at the workers in the arsenals kindled a beaconfire of creating the speed of the 80's--the new flag of speed--upholding the appeal of the party! Look at the heroic rolled steel workers in Kungson who marked a new record of 1 million tons with the same machinery that were producing 60,000 tons in 1956 by reforming ideology, technology and culture! Look at the miners of Anju who are effecting great upsurges in coal production tightly grasping the rock drill like a machine gun, in deep underground mine galleries in the spirit with which they would mete out stern punishment against the enemies if provoked, heartily upholding the order of the respected comrade supreme commander declaring a semi-war state to deter the enemies' military provocation maneuvers! Look at the Vinalon workers who normalized production at a high level with an attitude worthy of workers responsible for promoting the people's living standard and by a mass technical renovation movement, and who marked the greatest record in (?production)!

Look at the heroic construction workers Sin Komdok who are advancing to attain the target of 1.5 million tons of non-ferrous metal, demonstrating the spirit

of Korea in the 30's and upholding the three red flags on the cold hills more than 1,200 meters high! Look at the passionate and loyal young constructors in Nampo sluice gate, who are vigorously implementing the great ideal that "rice is communism" with the spirit of absoluteness and unconditionality to the party's policy!

You will see everywhere the site of combat to win the red banner of three revolutions and you will witness brilliant activities carried out by our three revolutions team members who are the flag-bearers and vanguards of our revolution. Overwhelming in all places of this land, where the three red flags of ideology, technology and culture are vigorously flying, are the surging faith and will to remain loyal to the party to the end on the road of the three revolutions.

Unswerving conviction and consistency in fulfilling the party's line and policy were the cause of our victory in the past and will be the cause of our permanent victory in the future, too.

Our people had to suffer disgrace for a long time as backward people when we had neither leader nor party. We had to endure difficulties, misfortunes and twists without our own correct guiding ideology and line. Various ideas, theories and books of other peoples flooded this land. However, we sent nothing out from this land. We had to ask other people even about how we should advance. We had to follow the road that the other people passed 200 or 300 years ago. This was Korea's situation of the past. When other peoples were carrying out the industrial and bourgeois revolutions, boasting of such civilized facilities as trains, our people slowly walked a long way with kat hat on their heads or traveled on donkeys, thus recording a disgraceful history.

Our revolution was hindered by the deep-rooted evils of flunkeism, of blindly following the other people. However, today we need not ask other people about the road we should advance on. We know very well about the road we should advance on. We do not have to ask anyone about anything.

We have the line of the three revolutions--the line of the great leader and our party. It is a permanent revolutionary way for us to advance. The three red flags will give us victory, glory and everlasting prosperity and happiness. These flags will give our friends encouragement and conviction while spreading anxiety and terror to our enemies. Our people will advance in firm unity under the diversity by upholding these flags under the guidance of the glorious party. We will bring the paradise of communism--the ideal of mankind--to this land by fulfilling the programs of the great Comrade Kim Il-sung without fail.

TANZANIAN PAPER PRAISES KIM CHONG-IL

SK161343 Pyongyang KCNA in English 0807 GMT 16 Feb 83

[Text] Dar es Salaam, 15 February (KCNA)--The Tanzanian paper MFANYA KAZI 12 February carried a special write-up under the title "Spirit of Korea indicating the road to the construction of a revolutionary party of chuche type" on the occasion of the birthday of the dear leader Comrade Kim Chong-il.

The paper printed a photograph of the great leader Comrade Kim Il-song and the dear leader Comrade Kim Chong-il going round the newly built tower of chuche idea.

It carried a detailed summary of the second part of "the Workers' Party of Korea is a chuche-type revolutionary party which inherited the glorious tradition of the DIU," a treatise of Comrade Kim Chong-il, member of the presidium of the political bureau, and secretary, of the Central Committee of the Workers' Party of Korea.

In the preface the paper says: The Korean people is today greeting the glorious holiday February, accelerating their advance towards the high eminence of communism, the supreme ideal of mankind, under the guidance of a chuche-type revolutionary party.

The dear leader Comrade Kim Chong-il inheriting the revolutionary cause started by the great leader Comrade Kim Il-song is further strengthening and developing the WPK into a revolutionary party of chuche type.

From the first day he took charge of the party work, the dear leader directed his theoretical study and thinking especially to the question of the party construction and thereby further deepened and developed the theory of the party construction onto a higher level, as required by a new stage in realizing the modelling of the whole of society on the chuche idea.

He gave encyclopaedic, profound answers to all problems arising in the building of a revolutionary party of chuche type such as the problems of the central tasks and ways of establishing the monolithic ideological system of the party, of imbuing the whole of society with the chuche idea, of the fundamental principles and ways of strengthening the leadership over the revolution and construction and of effecting a new change in the party work system and work

method. As a result, a great guiding compass has been provided to help the peoples of countries making revolution to build a revolutionary and militant party and consolidate it into an invincible detachment and the most correct path was illumined to victoriously carry on the revolutionary struggle and the construction work under the guidance of a leader.

FOREIGN FIGURES CALL KIM CHONG-IL ONLY SUCCESSOR

SK160548 Pyongyang KCNA in English 0411 GMT 16 Feb 83

[Text] Pyongyang, 16 February (KCNA)--The revolutionary people of the world are unanimous in highly praising the dear leader Comrade Kim Chong-il as the only successor to the revolutionary cause started by the great leader Comrade Kim Il-sung, saying that the Korean people making revolution under the guidance of the dear leader are the most proud and happiest people.

Shoichi Yokobori, general secretary of the Chiba, Japan, society for the study of the chuche idea, pointed out that the problem of inheriting the revolutionary cause is a weighty importance decisive of the destiny of the revolution. He said: It can be said that the history of the international communist movement does not know an instance in which the task of carrying forward and developing the revolutionary cause was correctly carried out.

But in Korea the problem of the heir to the revolutionary cause was brilliantly solved by holding Comrade Secretary Kim Chong-il in high esteem as the successor to the cause of chuche.

Lawyer of Mauritius Asdul Rasim Bedasi noted: "It was the unanimous desire of the Korean people to carry forward the revolutionary cause of chuche under the guidance of the dear leader Comrade Kim Chong-il, holding him in high esteem."

Serbian writer and journalist Mohamad al-Messti in his book titled "Brilliant Inheritance of the Cause of Kim Il-songism" wrote: "While touring various places and conversing with many people during my visit to Korea, I felt with deep admiration in various respects that dear Comrade Kim Chong-il is a man who is perfectly possessed of extraordinary wisdom, outstanding leadership ability, noble virtues and the personality and qualities of a great leader who is capable of inheriting and carrying to accomplishment the great cause of Kim Il-songism."

Camara, director of the political department in charge of economic relations of the permanent secretariat of the Guinean Democratic Party, stressed: "All the noteworthy events in Korea, a world-startling great change in literature and art, leap and innovation in the great battle for socialist construction and the grand nature-remaking projects hitherto unknown to humanity--all these are the brilliant fruition of the wise leadership of Comrade Kim Chong-il constantly inheriting and developing the chuche idea and applying it to life."

The chief of the Kim Il-songism youth study group of India remarked: All the signal successes achieved in Korea today are unthinkable apart from the meticulous guidance and solicitude of the dear leader Comrade Kim Chong-il along with the wise guidance of the great leader Comrade Kim Il-song.

To have the brilliant lodestar together with the great sun is the greatest fortune, pride, honour and glory of the Korean people which no other country, no other nation has ever enjoyed.

Thorsteinn Helgason, a teacher of a senior middle school in Iceland, stressed: Korea is the only country in the world which is overflowing with optimism, vigor and fighting spirit because she has her leader in the person of dear Comrade Kim Chong-il.

The Korean people holding His Excellency Kim Chong-il, the dear leader, in high esteem as their great guide is the happiest people in the world.

KIM CHONG-IL WORK ON REVOLUTIONARY SITES NOTED

SK161355 Pyongyang KCNA in English 1016 GMT 16 Feb 83

[Text] Pyongyang, 16 February (KCNA)--Many working people and school youth and children of Korea are making excursions to the revolutionary battle sites in Mt Paektu.

Their number has already exceeded ten million.

Mt Paektu is a holy mountain of revolution, 2,750 metres high above the sea level, located on the northwestern tip of Samjiyon County, Yanggang Province, the northernmost area of Korea.

The mountain bears brilliant, imperishable footmarks of the great leader Comrade Kim Il-song who waged the anti-Japanese revolutionary struggle to bring the new dawn of national liberation, holding aloft the banner of chuche.

Around the mountain there are many revolutionary battle sites and historic sites including barrage No 5, Chong Hill, Konchang, Pegae Hill, Lake Samji and Mupo through which the great leader, personally commanding the main unit of the Korean people's revolutionary army, marched into the homeland in May 1939. These sites form a huge open-air museum.

DAILY PLAYS COURT DECISION ON STUDENTS' APPEAL

SK121708 Pyongyang KCNA in English 1537 GMT 12 Feb 83

Pyongyang, 12 February (KCNA)--The Chon Tu-hwan military fascist clique at a verdict trial held at the puppet supreme court turned down the appeal of four former students of Kangwon University in South Korea, and confirmed prison terms passed on them.

In this connection a signed commentary of Minju Choson today says: As already reported, the fascist hangmen arrested four students of the university including a student surnamed Hong who scattered anti-U.S., anti-"government" leaflets in the campus and burnt a U.S. flag in April last year and passed prison terms upon them up to 2 years and 6 months after brutal persecution on charges of violation of the "National Security Law" and other draconic laws. And this time, in defiance of the strong protest and denunciation of the students and people, they confirmed the prison terms already passed on the four students.

This is a malicious challenge to the patriotic people who turned out to retake national dignity and sovereignty and an unpardonable crime against the nation.

The burning of a U.S. flag by the Kangwon University students was an explosion of their pent-up wrath and resentment against the U.S. imperialist aggressors and an expression of legitimate resistance against the U.S. imperialists' occupation of South Korea and policy of colonial enslavement.

The Kangwon University students' scattering of anti-U.S. leaflets and burning of an accursed U.S. flag were a righteous action reflecting the will of the nation. This action can never be a "crime" or an object of punishment.

Notwithstanding, the Chon Tu-hwan puppet clique inflicted harsh penalties upon the students who did the patriotic act, what can be more vicious act of treachery than this?

The Chon Tu-hwan puppet clique engrossed in suppressing and murdering fellow countrymen and in treachery, while kowtowing to the outside forces, is bound to meet a stern judgement of the people.

CHONGNYON LEADER SEEKS PRISONER RELEASE IN SOUTH

SKI20354 Pyongyang KCNA in English 0343 GMT 12 Feb 83

[Text] Tokyo, 10 February (KNS-KCNA)--Yi Kye-paek, vice-chairman of the central standing committee of the General Association of Korean Residents in Japan (Chongnyon), made public a talk on 10 February denouncing the fascist outrage of the Chon Tu-hwan clique in imposing prison terms upon students of South Korean Kangwon University who had burned down the U.S. flag in their anti-U.S. demonstration.

He said: The act of these students who burned the U.S. imperialists', "Stars and Stripes" which represents the dirty history of aggression, war and murder is a patriotic and heroic act reflecting the unanimous will of the entire South Korean people who hate the U.S. imperialists aggressors and demand the withdrawal of their troops.

As the patriotic students who set fire to the "American Cultural Centre" in Pusan said, this "is a deserved punishment to the crimes committed by the U.S. imperialists in this land for nearly 40 years."

Noting that the Chon Tu-hwan clique recently committed this fascist outrage after passing capital punishment and heavy penalties upon Mun Pu-sik and others involved in the arson at the "American Cultural Centre" in Pusan, Vice-Chairman Yi Kye-paek pointed out that such repressive outrage was perpetrated entirely on the instructions of the U.S. imperialists.

He stressed: The Chon Tu-hwan puppet clique should give up the criminal murderous trials, immediately release the patriotic students and all the political prisoners who have been illegally imprisoned and step down from "power" at once as required by the people.

He further said: However desperately they may try to provoke a new war, they can never shake our people closely united around the great leader Comrade Kim Il-song and the dear leader Comrade Kim Chong-il. We steel workers of the Kim Chaek Iron Works will organise all work in a revolutionary way to suit the semi-war state and firmly guard the steel front in a more strained and mobilised posture.

SK121750 Pyongyang KCNA in English 1549 GMT 12 Feb 83

[Text] Pyongyang, 12 February (KCNA)--The 1 February vinalon complex has successfully finished the modernization of its carbide kilns.

In recent years, the complex has built two new carbide kilns and reconditioned all the existing kilns into air-tight ones.

While giving on-the-spot guidance to Hamhung, the great leader Comrade Kim Il-song unrolled a far-reaching plan to free workers from backbreaking labour and markedly increase the production of carbide by modernizing the carbide industry.

Upholding the lofty intentions of the great leader, the dear leader Comrade Kim Chong-il indicated a concrete direction and ways to revamp the kilns into air-tight ones and saw to it that all problems arising in this work were solved.

'KCNA' DESCRIBES NEW FILM ON NAKWON MACHINE PLANT

SK141056 Pyongyang KCNA in English 1032 GMT 14 Feb 83

[Text] Pyongyang, 14 February (KCNA)--The Korean film studio recently produced one more successful work "pledge of that day," part 2 of the feature film "with a single heart," which struck our people with deep emotion last year.

Parts 1 and 2 of the feature film "with a single heart" depict the heroic struggle of party members and workers of the Nakwon machine plant who had unconditionally and thoroughly defended and implemented without the slightest deviation the teachings of the great leader Comrade Kim Il-song and the party's instructions in the periods of the past hard-fought fatherland liberation war and the postwar rehabilitation and construction.

Part 1 of the film "With a Single Heart" is based on a story about the cast iron shop of the plant in the period of the fatherland liberation war.

In those days the cast iron shop of the plant is given the task of producing handgrenades for victory in the war.

But there is neither a cupola furnace nor casting material, nor a brick left unbroken in the plant due to the repeated bombings of the U.S. imperialist air pirates. Worse still, malicious sabotages of counter-revolutionary elements who sneaked into the plant become all the more vicious.

The ten party members of the Nakwon machine plant including Chong Sun, the heroine of the film, build a cupola furnace and melt iron to turn out handgrenades in the revolutionary spirit of self-reliance.

When the great leader, shouldering the burdens of the war, calls on them in the midst of the war, Chong Sun earnestly tells him not to be worried too much, saying there will not be a big matter in rehabilitation and construction, if we win victory in the war. She says: We rebuilt in a matter of 2-3 years what was so severely destroyed by the Japanese imperialists when they fled, and led a happy life. So, if the war is over, we will carry out rehabilitation and life well.

Part 2 of the film "Pledge of That Day" impressively depicts the heroic struggle of the party members of the Nakwon machine plant who carry out the task of pro-

ducing a large-sized pump in the period of the postwar rehabilitation and construction, as they pledged to the great leader.

When the question of producing the large-sized pump is raised, they have not a single-purpose machine or a safe bucket for molten iron to speak of.

But informed that the great leader told that the question should be discussed with the party members of the Nakwon machine plant, the workers including heroine Chong Sun undertake this task without hesitation.

Of course they know only too well what a difficult task it is to produce a large-sized pump without any equipment or material and without any experience in the production of such things.

But they strive to produce it with the iron-firm faith that only when they fulfill this task can they implement the line and policy of the Workers' Party of Korea on simultaneously developing the light industry and agriculture while giving priority to the heavy industry and hasten irrigation as well. They think this is precisely to defend the party's line upholding the intentions of the great leader.

Chong Sun goes to the ministry concerned to ask for a few kinds of ministry materials. But, told that the great leader personally allots each ton of steel and each ton of cement, she returns to the plant emptyhanded not to trouble the leader.

Saying the great leader will be very sorry to hear that we, who told him not to worry about rehabilitation and construction, are now shrinking back in face of difficulties and are asking for a help, she unravels knotty problems by finding what they lack and making what they are short of in the revolutionary spirit of self-reliance, pooling strength with the masses.

In this way they turn out a large-sized pump while going ahead with the production of tower cranes, to honor their pledge to the great leader.

Although it is hard to imagine, in a common sense, to carry on construction and production under the grim conditions of the war and the postwar period, our party members and working class do not cry for help or depend on others.

The film gives an emotional picture of the high spiritual world of the Korean working class who unconditionally accepts the great leader's teachings and the party's policies and thoroughly implements them in the revolutionary spirit of self-reliance and hard struggle.

Parts 1 and 2 of the feature film "With a Single Heart" are a heroic epic which convincingly proves the invincible might of a people holding a great leader in high esteem through a broad and profound artistic generalisation of the historical facts associated with the Nakwon machine plant. The film is an excellent work which demonstrates the might of the chuche-oriented film art as an ideological weapon conducive to the revolution and construction.

KIM CHONG-IL GUIDANCE IN CONSTRUCTION PRAISED

SK161524 Pyongyang KCNA in English 1507 GMT 16 Feb 83

[Text] Pyongyang, 16 February (KCNA)--Korean builders have built monumental edifices of eternal value in many parts of the country, adding lustre to the majestic appearance of the country.

The young builders of Taechon are constructing a new power station, excavating a several thousand-ri long waterway and those in Nampo are building a large-scale lock gate, damming off the sea water extending 8 kilometres.

In Pvyongyang apartment houses up to 41 storeys are making their appearance on the bank of the Potong River and 20-39 storeyed houses along the street from the Haebangsan crossroads to Pyongyang railway station.

New modern streets are taking shape in Wonsan, Chongjin, Tanchon and other regions.

In the period of the fatherland liberation war, Korea was razed in the true sense of the word by the barbarous bombings of the U.S. imperialists.

The U.S. imperialists dropped over 428,700 bombs on Pyongyang, levelling it with the ground.

But the Korean people under the wise leadership of the great leader Comrade Kim Il-song and the energetic guidance of the dear leader Comrade Kim Chong-il have built grand monumental edifices everywhere in the country in less than 30 years after the war.

Gigantic metallurgical bases, large-size machine building bases and textile, chemical and building-materials bases have been built in Songnim, Kangson, Chongjin, Tae'an, Yongsong, Kusong, Hamhung and other places, and Pyongyang and other cities of the country have turned into modern cities.

Thanks to the far-reaching plan of the great leader and the bold and ambitious operations and energetic guidance of the dear leader for its realization, the country has assumed new looks in and after the 1970s.

The Chollima Street, the Nagwon Street and other modern streets have made their appearance and many monumental edifices such as the Korean Revolution Museum, the victorious fatherland liberation war museum, the Mansudae Art Theatre, the 8 February house of culture, the Pyongyang indoor stadium and the Pyongyang metro have been built in Pyongyang to demonstrate modern architectural art.

In Mt Myohyang the international friendship exhibition, a flawless structure of national style, was so built as to match well with the scenic beauty.

The modern Kumsong tractor plant, a leading one of its kind in the world, was constructed in Tae'an, comprehensively mechanized and automated large-scale long-distance belt conveyor transport lines in Unyul, Komdok, Haeju and Nampo and the Mirim lock gate on the Taedong River.

Entering the 1980s, the Korean people have built a large number of monumental edifices on the highest level to be handed down through generations.

The Changgwang Street, a communist ideal street, with 20- and 30-storeyed apartment houses lining its broad road stretching from the Potong gate towards Pyongyang railway station, was constructed in less than a year and the Munsu District with multi-storeyed flats standing in good order took shape on the bank of the Taedong River.

The tower of chuche idea, a 170 metre high stone-tower, rose on the bank of the Taedong River and the 60 metre high arch of triumph and the modern Kim Il-song stadium at the foot of Moran Hill.

The grand people's study house with a floor space close to 100,000 square metres came into being in the centre of Pyongyang, the capital of revolution, displaying the acme of the chuche-oriented architecture. Symmetric to the tower of chuche idea built on the opposite side of the Taedong River, it decorates the central part of the capital gracefully and magnificently.

The Pyongyang maternity hospital, the Changgwang health complex, the ice rink and the Chongryu Restaurant made their appearance as monumental edifices and fun fairs took shape in Mangyongdae and Mt Taesong.

The monumental edifices of eternal value built in Korea constitute a precious wealth for the happiness of our people and the prosperity of the posterity.

'NODONG SINMUN' ON FERTILIZER PRODUCTION

SK141157 Pyongyang Domestic Service in Korean 2216 GMT 13 Feb 83

[NODONG SINMUN 14 February editorial: "Let's Vigorously Accelerate the Production of Chemical Fertilizer and Agricultural Chemicals."]

[Text] Today, when the functionaries and working people of the rural economic sector are making preparations for farming with an attitude of increased alertness and mobilization upon receipt of the respected and beloved supreme commander's order on entering into a semi-war state, the important task of accelerating to the utmost the production of chemical fertilizers and agricultural chemicals is set forth for chemical industry workers.

The great leader Kim Il-song has taught: Chemical fertilizers, agricultural chemicals, and various other chemical products suitable to the characteristics of our country's soil and farm produce, ought to be produced in greater quantity and sent to rural areas.

Producing in greater quantity chemical fertilizer and agricultural chemicals and various other chemical products is a particularly important matter to thoroughly carry through the party's demand on attaining a great upsurge again in this year's agricultural production.

Agricultural production is directly connected with production of chemical fertilizers. Development of the rural economy is unthinkable without increased production of chemical fertilizers and agricultural chemicals. Under the conditions in our country where agricultural production is highly intensified, one of the things holding great potentials for increasing reserves in grain production is the use of plenty of chemical fertilizers.

To produce more chemical fertilizers and agricultural chemicals and send them to rural areas and use them at proper time and in proper quantities in accordance with the biological characteristics of the soil and the produce, can promote growth of the produce and completely relieve the farmers of weeding work, which is one of the difficult kinds of work for farmers. Increased production of chemical fertilizers and agricultural chemicals is also necessary to guarantee agriculture against the severe cold front. Acceleration of production of chemical fertilizers becomes all the more pressing problem today when the farming season is getting closer each day.

As the great leader Comrade Kim Il-song has taught: Rice is communism.

Therefore, our party made an appeal that the grain height should be occupied first of all in realizing the 10 major prospective targets of socialist economic construction. All functionaries and workers in the rural economic sector, upholding the great leader Comrade Kim Il-song's new year address, have, since the beginning of this year, prepared well in agriculture to again attain an upsurge in this year's agricultural production.

Before long, sowing, and then the rice planting battle will be conducted in rural areas, and this will require much chemical fertilizer and agricultural chemicals. It, therefore, becomes very important and essential work that the sectors of the chemical industry, the mining sector and the sectors related to fertilizer production accelerate production of various agricultural chemicals and fertilizers such as nitrogen, phosphate and kalium, putting their facilities in full operation. Above all, various chemical means are all the more required to ensure a sufficient supply of chemical fertilizers and agricultural chemicals to meet the increase in arable land resulting from the vigorous campaigns for tideland reclamation and finding new arable land, and to accelerate the rural technical revolution and to thoroughly accelerate Chuche agricultural methods.

In fact, accelerating the production of chemical fertilizers and agricultural chemicals is an important task which we should vigorously push ahead with to secure decisive victory in the struggle to attain the grain height of the second 7-year plan. All functionaries and workers in the sector of producing chemical fertilizers and agricultural chemicals should vigorously carry on the battle for producing chemical fertilizers and agricultural chemicals, upholding the great leader Comrade Kim Il-song's teaching that fertilizer is rice.

What is most important here is that the functionaries and workers in the sector of producing chemical fertilizers and agricultural chemicals work militantly work to successfully carry out the tasks entrusted to them in a tense and mobilized posture, meeting the requirements of the situation.

Ours is a heroic people who have broken the haughty nose of the U.S. imperialists, who were boasting of being the world's strongest during the period of the past fatherland liberation war. For our people who have always fought overflowing with confidence in victory and with fighting will, there is nothing they cannot do once they resolve to do it, and even by creating something out of nothing, they have astonished people. When they work in this style, under today's better conditions, there is nothing they cannot do no matter what difficulties may pile up.

All functionaries and workers in the field of producing chemical fertilizers and agricultural chemicals should obstinately struggle to successfully carry out the task assigned to them in the spirit with which they successfully ensured the task of wartime production and the postwar economic construction during the difficult days during and after the war upholding the party's intention.

In particular, the functionaries and the workers in the domains of chemical and mining industries, deeply conscious that the struggle for producing chemical fertilizers is a worthwhile task to implement the party's far-seeing plan to arrange for our people a more affluent and civilized life, should operate all chemical fertilizer plants at full capacity, meticulously planning the work for managing facilities and ensuring the supply of raw materials. By so doing, they should finish ahead of schedule this year's chemical fertilizer production tasks according to the party's guidance and wishes.

To successfully ensure the production of chemical fertilizers and agricultural chemicals, they should work well in the relevant domains. Only when they make innovations collectively and produce and ensure the timely supply of the needed raw materials, resources and machine facilities in the relevant domains can they normalize production and endlessly increase the production of chemical fertilizers and agricultural chemicals.

All party members and workers involved in the production of chemical fertilizers, militantly accelerating production and construction to meet the requirements of the situation, should guarantee a timely supply of raw materials, resources and machine facilities needed for production of chemical fertilizers.

Especially, the working class of phosphate mines, correctly bearing in mind the meaning phosphate has in the production of phosphorous fertilizer, should accelerate the production to the maximum degree. Along with this, in the machine facilities needed for the production of chemical fertilizers should be accelerated and in the domain of railway transportation, freight hauling and delivery should be carried out on time.

Chemical fertilizers and agricultural chemicals are lawful assignments which should be produced and supplied without fail within the scheduled times. The party organizations and the three-revolution work teams in the domain of chemical fertilizer production and other relevant domains, going deep among the producers and ambitiously conducting political propaganda and economic agitation calling them to labor feats, should have them to endlessly register new records and new standards.

In particular, the party organizations and the three-revolution work teams should correctly organize and guide in order that the producers, with a high sense of responsibility worthy of masters, do a good job in the work for the repair and maintenance of the facilities, strictly keep to the standard manufactory procedures and technical specifications in their operations, and highly display the revolutionary spirit of self-reliance and arduous struggle. Together with this, the party organizations should correctly guide and support in order for economic guidance functionaries plan economic organizational work and command work for production, as befitting the commanding members of the revolution who responsibly manage the nation's economy.

There stand in Hamhung a statute of Comrade Zhou Enlai and a monument to his memory.

The great leader Comrade Kim Il-song and Comrade Zhou Enlai respected by the Chinese people visited Hamhung in February 1958.

Upon arriving in Hamhung Comrade Zhou Enlai made a speech before the workers of Hungnam who presented a flower garden of Korea-China friendship.

Our people and the workers in Hamhung who greatly value Korea-China friendship sealed in blood amid the flames of the anti-imperialist common struggle erected the statue of Comrade Zhou Enlai and the monument to his memory in May 1979 in the compound of the Hungnam fertilizer complex where he had left marks of Korea-China friendship in his lifetime between the two peoples, which will be conveyed down through generations.

Comrades Deng Xiaoping, Zhao Ziyang and Deng Yingchao and many other cadres and delegations of the Chinese people visited Hamhung and had significant meetings with Hamhung citizens.

Relations of friendly cities were established between Hamhung and Shanghai in June 1982.

Hamhung, a city of Korea-China friendship, has developed into a chuche-based industrial city of our country under the wise leadership of the great leader Comrade Kim Il-song and the dear leader Comrade Kim Chong-il.

The great leader called on the workers of Hamhung on 16 April 1946, and unfurled a grand blueprint of a powerful independent national industry, saying that Korea was liberated for ever and thus we should build a rich and strong independent sovereign state.

Through his on-the-spot guidance to the city on more than 70 occasions thereafter, he has turned it into a reliable industrial district displaying the might of the chuche-based industry.

Today the city has diversely developed industries, chemical, machine-building, building materials, metal, textile and foodstuff industries.

Particularly, the 8 February vinalon complex, the Hungnam fertilizer complex and the Ryongsong machine complex are making a big contribution to the development of chemical and machine-building industries and agriculture of the country.

Today the Hamhung workers are effecting a great revolutionary upsurge in production in the spirit and mettle with which they smashed the U.S. imperialists, jointly with the Chinese people's volunteers, in the period of the fatherland liberation war, while keeping themselves in full combat preparedness to wipe out at one sweep the U.S. imperialists aggressors who are hell bent on the new war provocation manoeuvres.

'NODONG SINMUN' DENOUNCES U.S. AID TO ISRAEL

SK111020 Pyongyang KCNA in English 1002 GMT 11 Feb 83

[Text] Pyongyang, 11 February (KCNA)--NODONG SINMUN today in a commentary notes that the U.S. Government's recent decision to give a large amount of military aid to Israel again in the fiscal 1984 is aimed to keep and expand their sphere of influence over the Middle East area without much difficulty through the Israeli brigands who are getting frantic with their new war provocation manoeuvres.

The author of the commentary says:

The U.S. imperialists proclaimed the oil-rich Middle East a "sphere of vital interest" and are using the Israeli aggressors as a shock force in dominating and controlling the countries in this region.

The Israeli Zionists with the zealous encouragement and backing of the U.S. imperialists, unleashed several Middle East wars to occupy broad areas of the Arab territory and are now trying to annex them for good.

Far from withdrawing from the Lebanese soil they occupied, they are hastening preparations to invade Syria and other neighbouring Arab countries with it as a bridgehead. A dangerous situation which may cause the second Lebanese incident has now been created in the Middle East region due to the war moves of the Israeli brigands. Blame for this is to be ascribed entirely to the U.S. imperialists who are zealously encouraging Israel.

In deciding to give huge military aid to Israel in the next fiscal year the U.S. imperialists committed an unpardonable criminal act supplying the Zionists with more death-carrying weapons to egg them on to war provocation.

The U.S. imperialists must stop supporting the Israeli aggressors militarily and encouraging them to the provocation of war and take hands off the Middle East area.

DAILY CRITICIZES NAKASONE'S REMARKS AT DIET

SK100526 Pyongyang KCNA in English 0417 GMT 10 Feb 83

[Text] Pyongyang, 10 February (KCNA)--Answering the interpellation of opposition Dietmen a few days ago, Nakasone prattled that it is permissible under the Japanese constitution for the Japanese "self-defence forces" to escort U.S. warships "in the event of a contingency."

NODONG SINMUN today, commenting on this, remarks that this betrayed the dangerous intention of the Japanese militarists to expand the scope of the area of Japan's military operations indefinitely and conduct joint operations with the U.S. forces in an area far off Japan. The author of the commentary says:

Nakasone's answers at the Diet are nothing but a compliance with the demand of the master across the ocean that Japan, as a junior ally of the U.S. imperialists, assume part of the U.S. military role in the Asian-Pacific region.

It is also connected with this that these days the Japanese Government and military authorities are zealously arguing about the "blockade of the Korean Strait," conversion of Japan into an "unsinkable aircraft carrier" and "defence of sea routes up to 1,000 miles from Japan."

The first target of Japan's military action is Korea. The U.S. imperialists plan to let the Japanese naval "self-defence force" participate together with the South Korean puppet navy in the projected war exercises of the U.S. aircraft carrier Task Force in the East Sea of Korea and the northwest Pacific. Announcing this plan of the United States, the U.S. undersecretary of defence gave an intimation that negotiations have already started between the authorities about the U.S.-Japan-South Korea tripartite military operations in "case of emergency" in the Korean Peninsula.

Nakasone's talk about "escorting U.S. warships" proves once again that Japan intends to play a big part in new war of aggression in Korea by deeply involving herself in the U.S. imperialists' war strategy.

We cannot but direct attention to the fact that underlining this jargon is the wild ambition of the Japanese militarists to pave a road for the overseas dispatch of the Japanese "self-defence forces" by availing themselves of the

U.S. imperialists' Asian strategy and realise the old dream of "greater east Asia co-prosperity sphere" by force of arms.

All these moves of Japan bear witness to the fact that the Japanese militarists with the backing of the U.S. imperialists are openly seeking overseas military aggression.

If Japan, bound to the war chariot of the U.S. imperialists, follow the road of aggression, this will lead her to destruction.

'NODONG SINMUN' MARKS IRANIAN ANNIVERSARY

SK111357 Pyongyang KCNA in English 1043 GMT 11 Feb 83

[Text] Pyongyang, 11 February (KCNA)--Papers here today dedicate articles to the fourth anniversary of the victory of the Islamic Revolution in Iran.

An article of NODONG SINMUN says that on this anniversary the Korean people express fervent congratulations to and firm solidarity with the friendly Iranian people.

The author of the article says:

The victory of the Islamic Revolution in Iran on 11 February 1979. Greatly encouraged the peoples of various countries of the world in the struggle against all manner of domination and tyranny and for national independence, sovereignty and liberation.

This victory showed that only through their united struggle the oppressed peoples can liberate themselves and fascist dictators betraying the people are bound to meet their doom.

Over the past 4 years the Iranian people under the leadership of His Excellency Ayatollah Imam Khomeini, the Islamic leader, have consolidated and developed the victory of the revolution, smashing the U.S.-led imperialist aggressive forces' threats, interventionist and subversive manoeuvres.

The Iranian Government and people are struggling to defend their country's sovereignty and national dignity and pursuing an independent foreign policy based on the principles of non-alignment.

Our people hail the successes made by the Iranian people in the struggle for building a new society.

As Asian countries and member nations of the non-aligned movement, Korea and Iran are waging a joint struggle to build a new Asia, independent and prosperous. For this commonness the two peoples are closely supporting and cooperating with each other and constantly developing the friendly and cooperative relations between them.

Our people will in the future, too, as in the past, make positive efforts to strengthen and develop and friendly and cooperative relations with the Iranian people.

The Korean people wish the Iranian people greater success in their struggle for defending the gains of the revolution and building a developing and thriving, new society.

IRANIAN AMBASSADOR HOLDS PRESS CONFERENCE

SK121020 Pyongyang KCNA in English 0808 GMT 12 Feb 83

[Text] Pyongyang, 12 February (KCNA)--Iranian ambassador to Korea A. Nahavandian called a press conference at his embassy on 11 February on the occasion of the fourth anniversary of the victory of the Islamic Revolution in Iran.

Present at the press conference were newspaper, news agency and radio reporters in Pyongyang.

Ambassador A. Nahavandian made a speech.

Noting that over the last 4 years the Iranian people smashed the aggressive manoeuvres of the U.S. imperialists and made a big progress in their efforts for an independent new life, he said that the targets of the 5 year plan and the 20 year plan are to build an independent economy by developing all the fields including industry and agriculture by their own efforts and resources.

After the victory of the Islamic Revolution, he said, Iran severed her relations with the U.S. imperialists, Israel, South Africa and other reactionary countries and is developing relations with independent fraternal countries. We are further developing friendly and cooperative relations particularly with the Democratic People's Republic of Korea led by the great leader Marshal Kim Il-song.

He pointed out that the "team spirit 83" military exercises started by the U.S. imperialists in South Korea are designed for aggression on Korea and other countries in this region.

Stressing that struggling against the U.S. imperialist aggression manoeuvres is a self-defensive measure and a duty of all the peoples, he said that, if a war is forced by imperialists, we must knock down the enemy to the last man.
